About us

The music of Cali has a special feel, the sounds from the pacific coast having a great influence on the musical DNA of the city and air it breathes. The “Tumbao” of salsa music melted with urban vibes bring an explosive energy, a unique identity and personality to the music of the local scene.

Zalama Crew being sons of that identity have built an special sound with rhythms such as Hip Hop, Dancehall and the afro flavor that rumbles in the blood and the whole body, with all the pacific cadence mixed with caribbean elements. Their live show is what sets them apart. They have made a place for themselves in the country's music scene.
