High 58°F Low 20°F

Average rainfall: 22"

Average snowfall: 89"

For your stay at RidgeWalk, Angel Fire's altitudes keep temperatures moderate during the typically hot New Mexican summer, meaning that visitors can make the most of their outdoor activities in comfort. During the cold season, which lasts between November and March, freezing temperatures and snow are very common. **Remember, an all-wheel drive vehicle is necessary to access our treehouse in the winter.**
