

What Customers Say About TeleSoft

TeleSoft International is noted for the integrity of the code, the expertise, and the responsiveness of the technical support. TeleSoft is also noted for delivering code on time. All of these characteristics will be important to keeping your project on schedule and running smoothly in the field, and especially critical to your success if you transfer the product to another engineer for product maintenance.

Customer references are often the best way to evaluate a vendor. A vendor of good quality will have **many references that have been in place for several years**. Please make sure that you check the references from all of the vendors so that you can determine for yourself if the vendor has a long history of treating all of their customers with integrity.

TeleSoft International is noted for the **integrity of the code, the expertise, and the responsiveness of the technical support**. TeleSoft is also noted **for delivering code on time**. All of these characteristics will be important to keeping your project on schedule and running smoothly in the field, and especially critical to your success if you transfer the product to another engineer for product maintenance.

Contact our [Sales Department](#) for a list of some of the TeleSoft references so that you can ask them if our code is clean, if our technical support is knowledgeable, if we deliver code on time, and if the TeleSoft code in our customers' products passes compliance testing easily.

Employee turnover within TeleSoft is extraordinarily low, much lower than most technology companies, so we know the marketplace very well, we know our customers very well, and we know our competition's strengths and weaknesses.

"TeleSoft gives us the option of seeing every information element and message OR we can hide most of the Q.931 details. No vendor removes the need to know about Q.931, but TsLink3 code gives us the option of minimizing the need to know by hiding most of the Q.931 details so that we don't have to deal with them. You only need to address a few application-specific Q.931 messages or information elements."

"TeleSoft code has fifty percent fewer ifdefs than their leading competitor."

"With TsLink3, I'm able to find exactly where the dataflow is going and where to make modifications to address my needs."

"I know exactly where the code is going - with the other company's code, I couldn't pin things down."

- Cisco

"TeleSoft gets a very high grade for being solid, reliable, and dependable.rock-solid throughout the whole project. Performance was also quite good. Didn't have to touch the TeleSoft code."

- 3COM Primary Access

"TeleSoft solutions were an excellent value. They cut our development expense by 2/3rds."

- Patriot Scientific

"TeleSoft code reduced our time-to-market by at least two man years."

- Workstation Technologies

"TeleSoft code made our ISDN product feasible; it saved us at least one year of market opportunity."

- NxNetworks Proteon

"Telesoft has always been a great partner helping us to integrate the ISDN stack into our application. Their code and support is superior. That's what sets them apart."

- Voyant Technologies

"The Telesoft code gave us a fast way to add ISDN capabilities to the InstantOffice system. During implementation, technical support responded very quickly with concise answers to our questions. When the rare problem was found at a customer site, technical support was again right there, helping us to quickly solve the problem."

- Vertical Networks

"The TeleSoft code shortened our development time. Their technical support greatly exceeded our expectations in terms of both speed and depth of knowledge - super prompt and incredible technical expertise."

- Dynalec

"We appreciated TeleSoft's code flexibility and the reliability of the technical support. TeleSoft technical support ensures that customers can successfully integrate and adapt TsLink3 code for their own platform."

- Digicom
