# Museum Sketching Sessions: Day 3 Shading
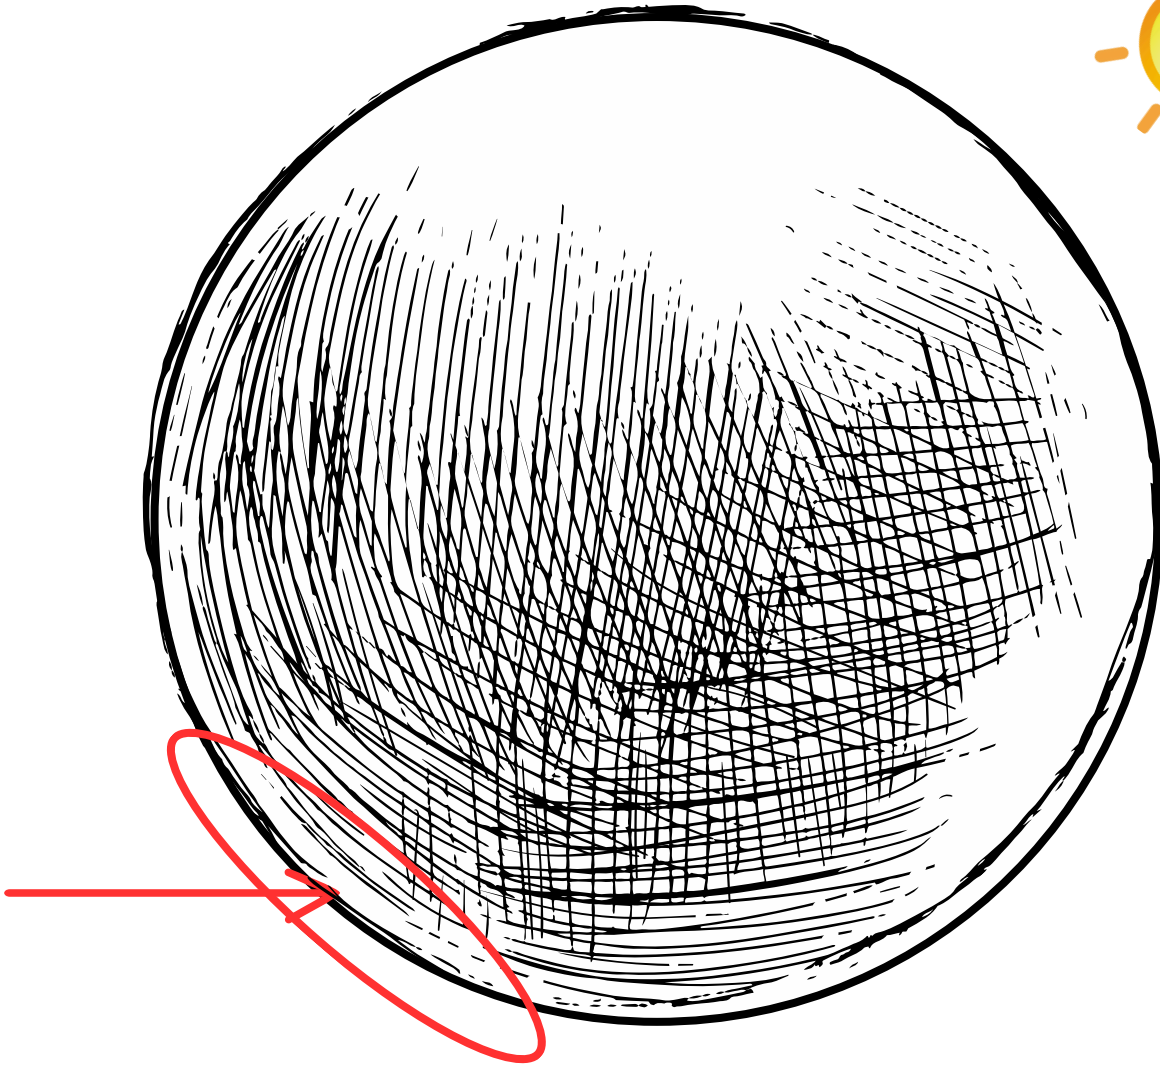

City of Harlem, Georgia

First step is to draw a basic shape. An example here is a circle.

**Second step is to identify an imaginary light source.**
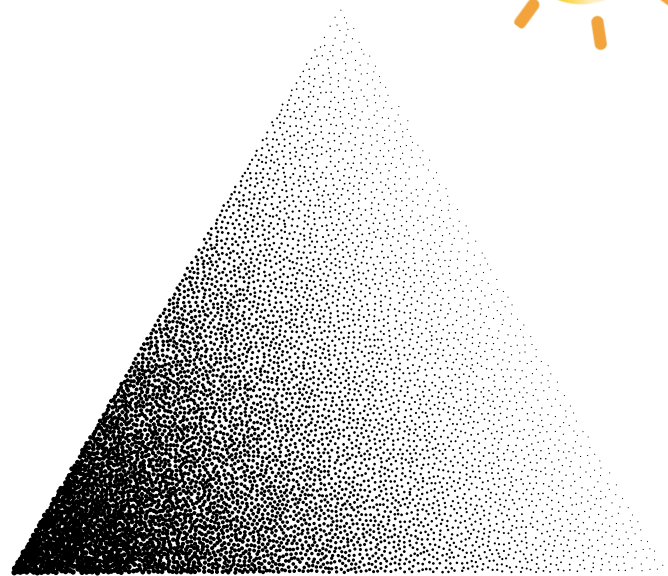

Third step is to lightly cross hatch your shadows.

Pay attention to the light sources! This is a circle so light reflects!

# Continue cross hatching to make layers!

Smudging

Stippling

Single hatch

Other shading technique Examples!

Reference photo!

You can combine shading techniques to give your drawing a more realistic look.
