

Energy savings, from the top to the bottom line.

RADIANCETM

ENERGY EFFICIENT SILVER

Radiance is a cost effective, high performance window film solution to rising energy bills. It offers a short payback period by substantially reducing solar heat gain through windows, improving air conditioner efficiency and lowering running costs.

The strong metallic finish of Radiance aesthetically provides daytime privacy with a modern outdoor appearance to windows and is the most suitable enhancement for inefficient colour toned glass.

Radiance resolves building hot spots, improves interior comfort and protects furnishings from the damaging heat & UV rays from the sun. Delivering the highest solar performance available, Radiance is a sound investment with a multiple of advantageous returns.

Radiance - energy savings, from the top to the bottom line.
