**WELCOME
TO THE 2022
CANADIAN WESTERN
AGRIBITION SSBA
SHOW & SALE**

Regina, SK.

<https://sasksheepbreeders.com/>

WELCOME TO #CWA22 FROM THE SSBA

The Saskatchewan Sheep Breeders' Association was established in 1909 by a group of sheep producers who wanted to improve the sheep industry in Saskatchewan. This group knew that by working together, they could promote the sheep industry, deal with significant issues & support each other in raising high-quality breeding sheep. Today, the SSBA has members from all over the province, and other provinces, producing purebred and commercial sheep. There are breeders of 17 different purebred breeds and several crosses.

2022 is the Agribitions 51st year. CWA is where the world meets, and the SSBA is proud to be a part of it.

We want to take this time to thank everyone who contributed to the 2022 Agribition to make this event successful!

SANDY HILL HEIDI 10H

Mature Ewe * Twin * February 29, 2020

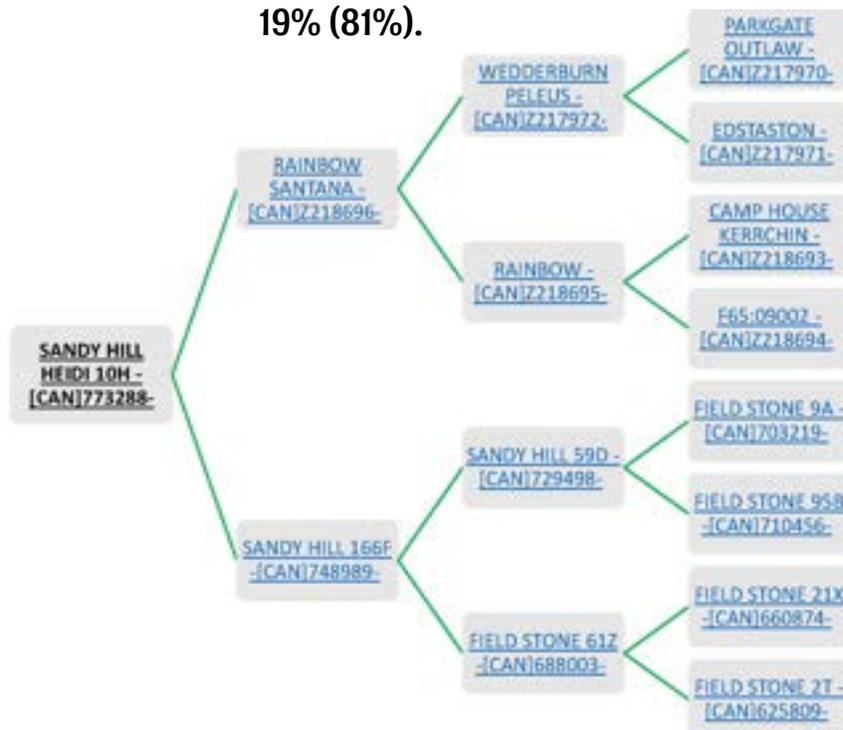

Breed: Charollais

Consigned By: Sandy Hill Charollais

Sandy Hill Heidi 10H is a very reluctant sale. Her dam is one of our most powerful top-producing ewes, and her sire is the well-known UK ram, Rainbow Santana.

Heidi is the full package. Very feminine, correct, with lots of length and capacity. She is in-lamb to Sandy Hill Hotshot 9H scanned in lamb with twins, but we suspect triplets as she is much larger this year. She birthed two cracking lambs last year unassisted and has exceptional maternal qualities, just like her dam.

Heidi is scrapie genotyped AARRRR from an MV-negative tested flock. She scores high on GenOvis for maternal qualities in the top 6% (94%) for the Charollais breed, and her gain is top 19% (81%).

LOT 326

SANDY HILL JITTERBUG 50J

Yearling Ewe * Triplet * January 19, 2021

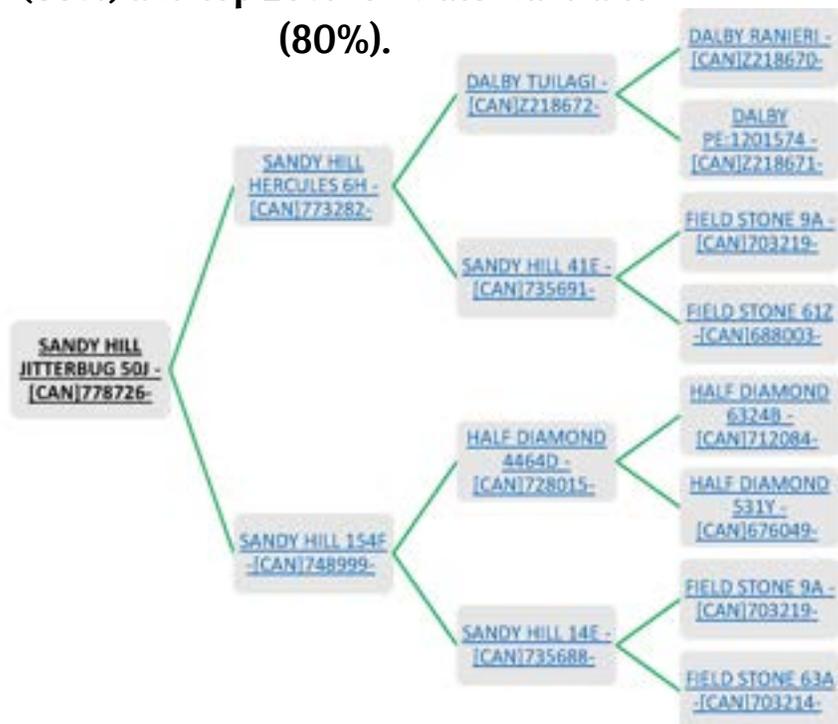

Breed: Charollais

Consigned By: Sandy Hill Charollais

Sandy Hill Jitterbug 5J is a very feminine correct ewe with good length and capacity.

Jitterbug is scrapie genotyped AARRRR from an MV-negative tested flock. She is in-lamb to Sandy Hill Jackpot 7J, scanned with twins. Jackpot is a new genetic we brought into Canada from the UK - Oakchurch Ruben, so this is your chance to get some of this new bloodline.

Check out Jitterbug's GenOvis performance data - top 11% of Charollais breed for Gain (89%) and top 20% for Maternal traits (80%).

LOT 327

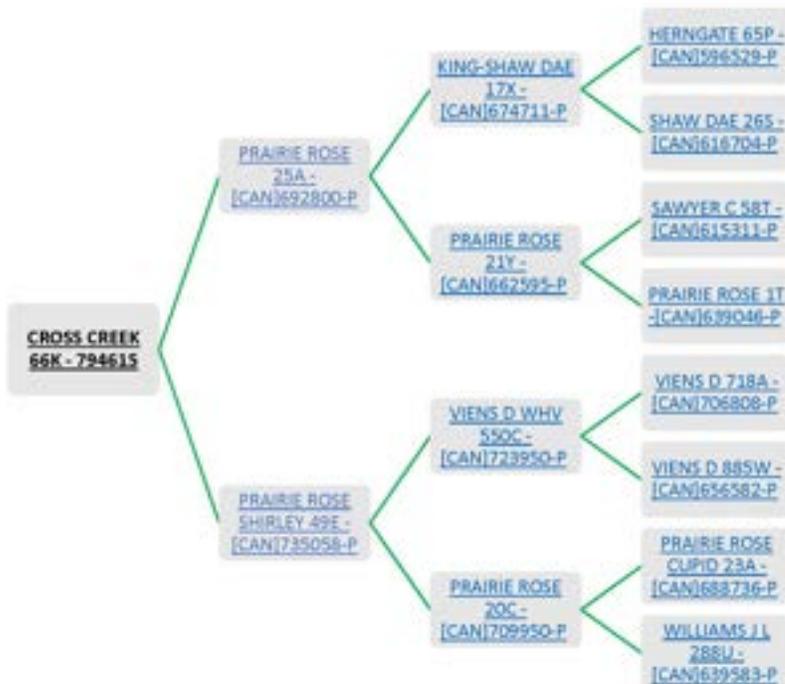

CROSS CREEK KALM 66K

Ewe Lamb * Twin * January 25, 2022

Breed: Dorset

Consigned By: Cross Creek Farm

This ewe is our definition of a Dorset - short in the leg and correct in every way. Her genetics run through our flock everywhere. She will make a great addition to anyone's breeding flock

LOT 328

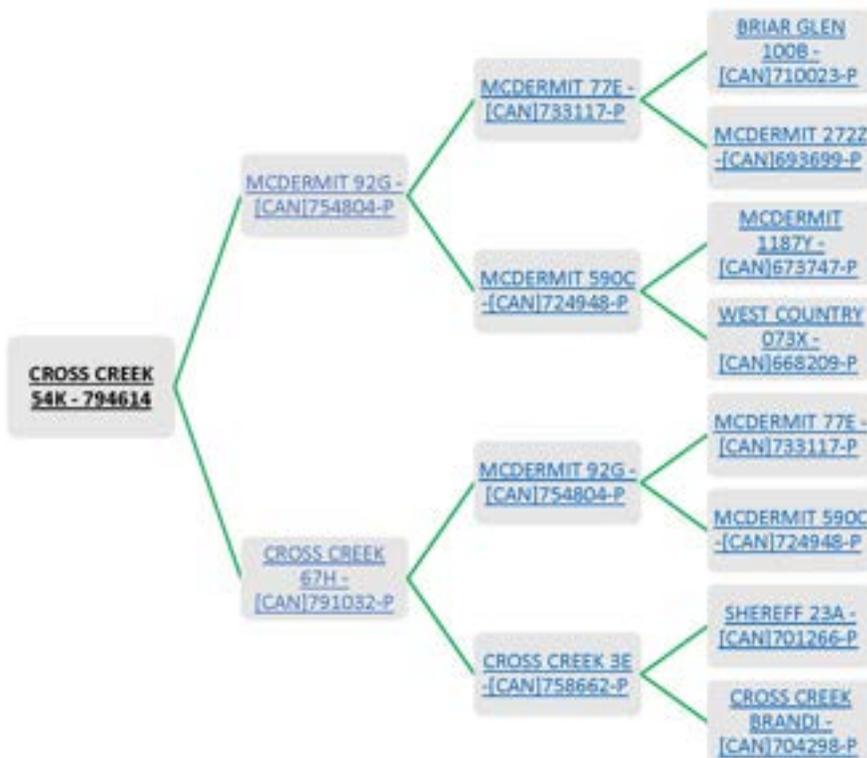

CROSS CREEK KIWI 54K

Ewe Lamb * Twin * January 28, 2022

Breed: Dorset

Consigned By: Cross Creek Farm

She has the same story as 66K; she is correct in every way. She's got all the makings to be a great mother and represents the Dorset breed well.

LOT 329

SANDY HILL KATNISS 3K

Ewe Lamb * Single * January 11, 2022

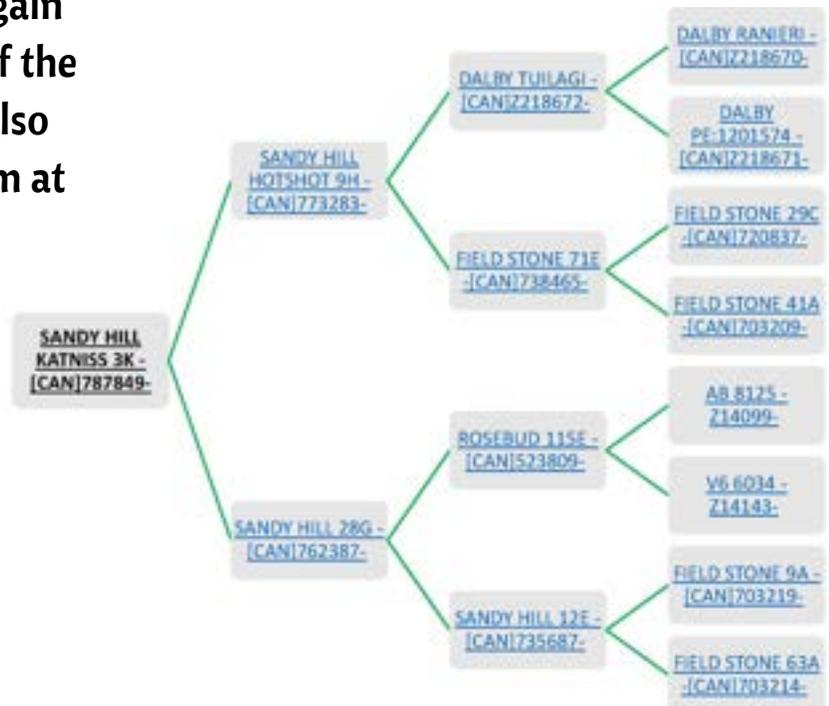

Breed: Charollais

Consigned By: Sandy Hill Charollais

Sandy Hill Katniss 3K is a very correct feminine but sturdy ewe lamb with lots of length, width and capacity.

Katniss is scrapie genotyped AARRRR from an MV-negative tested flock. She has been exposed to our young stock ram, Sandy Hill Jackpot 7J, who is sired by a top UK ram, Oakchurch Ruben, whose semen we imported into Canada. She was scanned on October 15, but the result was inconclusive as it was too early to tell.

Katniss scores very high on GenOvis for gain and maternal traits, being in the top 6% of the Charollais breed for both (94%). She is also sired by the 2021 Supreme Champion Ram at Agribition, Sandy Hill Hotshot 9H.

LOT 330

LOT 334

BB FARMS KIM 992K

Ewe Lamb * Twin * February 20, 2022

Breed: Canadian Arcott
Consigned By: BB Farms

Pictures do not do this ewe lamb justice. She was picked out as a favourite from the start. She was one of our top gainers amongst the ewe lambs. She sports the Ile de France features in the Canadian Arcott breed. She was exposed to BB Farms Krebs 996K, and if she is in lamb will be due on April 5, 2023. These are the first ewes ever bred to him. He was one of our top ram lambs with 94% Maternal and 92% Gain Genovis Numbers. If she is in lamb, her lambs will be a huge asset to your flock! I can't say enough about this girl; she is hard to let go of!
