

**July 21-23, 2023**

**WELCOME  
TO THE  
2023  
GRASSLANDS  
EXHIBITION**

Established 1909

***Humboldt Uniplex  
Humboldt, SK.***

# WELCOME TO #GRASSLANDS2023

The Saskatchewan Sheep Breeders' Association was established in 1909 by a group of sheep producers who wanted to improve the sheep industry in Saskatchewan. As a group, they knew they could promote the sheep industry, deal with significant issues, and support each other in raising high-quality breeding sheep by working together.

SSBA members come from across the province and other provinces, producing both purebred and commercial sheep. There are breeders of 17 different purebred breeds as well as several crosses.

2023 is the 46th year of holding the Grasslands Sheep Exhibition. We are all very proud to have been able to continue what those in 1977 started. From Vanscoy, Assiniboia, Drake & now Humboldt, all the venues have ended with the same result of promoting the production & sale of high-quality purebred & commercial sheep in Saskatchewan.

Our goal is to make the Grasslands Sheep Exhibition a lasting tradition for many years to come, so we appreciate your attendance. Partnering with the Saskatchewan Sheep Development Board for the Grasslands event is a great pleasure. The Grasslands Sheep Exhibition team would like to thank everyone who contributed to its success in 2023.

# WELCOME TO #GRASSLANDS2023

The Saskatchewan Sheep Development Board (SSDB) with its office in Saskatoon, has been given responsibilities and authorities under a specific mandate enacted by legislation, “The Agri-Food Act 2004” and the “Sheep Development Plan Regulations 2013” to promote and develop the sheep industry. The Board of directors and staff of the SSDB work hard on behalf of Saskatchewan sheep producers for the benefit of all producers in the province.

## \*Mission Statement

To enable the growth of the Saskatchewan sheep industry through supportive programs and services.

## \*Vision Statement

Leaders of a prosperous sheep industry.

## \*Mandate

Our Vision and Mission is achieved by:

- Representing and responding to the needs of all sheep and lamb producers of Saskatchewan.
- Providing an effective communication channel.
- Providing marketing options and market information for lamb producers.
- Providing resource stability to the Saskatchewan Sheep Development Board.
- Providing education, extension, and information transfer to assist producers in maximizing returns for lamb, sheep, and sheep products.
- Ensuring access to sheep supplies.
- Promoting the lamb industry, the consumption of lamb and the use of sheep products.
- Implementing the strategic plan developed by the sheep industry for the sheep industry.
- Working in cooperation with other industry groups, marketing associations, commissions, and committees which have objectives consistent with those of the Saskatchewan Sheep Development Board.
- Working in partnership with the Saskatchewan Ministry of Agriculture

**The Saskatchewan Sheep Development Board is pleased to be partnering with the Saskatchewan Sheep Breeders to bring you the 2023 Grasslands Sheep Exhibition.**

We have had great success with the perennial pasture mixtures, the various legumes and grasses helped increase our production while lowering fertilizers costs. Cover crops after silage or green feed is beginning to be an integral part of our operation to help extend our fall/early winter grazing season with a high-quality feed.

# UNION FORAGE

## Canada's Forage Innovators

Silage Programs To Maximize Revenue/Acre with a Second Silage Crop or Extended Grazing

Impressive turnip and grazing forage rape regrowth, even in a year where rainfall was poor to say the least. Our silage averaged a ton more with Union Forage blend and stayed green for a longer harvest window.

Perry Rasmuson, Moosomin, SK

I've made my pastures work for me summer and winter, thanks to the Union Forage guys. You can trust what they tell you. The Union Forage swath-grazing mixture was seeded in June, it grew well and created a lot of forage for the cows as well as putting energy and nitrogen into the soil. The Goliath forage rape is frost resistant to -10 C, so it keeps growing late into the year.
