

Gaia

Holistic Birthing & Family Sanctuary

Acknowledgement of Country

We wish to acknowledge the Yugambah people, the traditional custodians of this land we envision birthing Gaia upon, who have cared for and protected country here for more than 70,000 years.

With deep respect, we honour their enduring connection to the sacred lands, flowing waters, and rich cultural wisdom. We offer gratitude for the way they have nurtured and safeguarded this country so that we may now live, work, play, and raise our families upon it.

We pay our respects to the Elders past and present and extend that respect to all Yugambah people today and into the future. May we continue to learn from their wisdom, walk gently on this land, and carry forward a legacy of care, respect, and deep listening to country.

Our Purpose

“Uplifting and empowering families, one birth at a time.”

Our Vision

At **Gaia Holistic Birthing and Family Sanctuary**, we honour the **sacred unfolding of life** through heart-led, evidence-based, women-centred, family-inclusive, holistic, and compassionate care.

Our model of care is guided by **professional standards** and delivered with **cultural sensitivity, and respect**. We offer safe, integrated maternity and family care through a **collaborative team** of qualified midwives, general practitioners, and specialist obstetricians. In partnership with our referral hospital, we ensure **continuity of care** across the pregnancy, birth and postpartum journey, supporting **informed decision-making** and **clinical safety** at every step.

We believe that birth is more than a physical event. It is a spiritual and emotional transformation.

Our sanctuary provides a supportive environment that **nurtures each woman's individual needs and preferences**, encouraging emotional wellbeing, self-agency, and community connection.

It is also a place where **love leads, intuition is trusted, community uplifts, and every feeling is sacred**. Here, we remember the **ancient wisdom of feminine power, the healing gifts of nature, and the strength of sisterhood**.

We are committed to nurturing empowered, conscious mothers who, in turn, birth and raise empowered, conscious generations.

Our Mission

- ♥ Our mission is to create accessible (cost-effective), evidence-based, women-centred and high-quality birthing and family centres that enable safe, peaceful and soulful births onto Earth.
- ♥ We are working towards securing funding in 2025 to open our first centre on the Gold Coast in 2028.
- ♥ We strive to empower 360 women to birth safely and peacefully in our sanctuary in the first year of opening, increasing to 720 women per year beyond that. (=30/60 per month)
- ♥ We strive to support and empower one hundred families per week in our family sanctuary in the first year of opening, increasing steadily beyond that.
- ♥ Our aim is to provide exceptional service with feedback continuously high, and any improvement suggestions considered swiftly.

Our Values

*Our values are more than a philosophy, it's our living commitment to how we walk with mothers, families, and the Earth. **SACRED** guides every interaction, decision, and moment in our space.*
