

COOLRESTORE ELEGANCE AFTERCARE RECOMMENDATIONS

The CoolRestore Elegance is a non-invasive treatment. It uses a physical effect of a low temperature to tone skin, improve blood and lymphatic circulation, accelerate cells turn over and help with fat cells reduction.

The treatment is refreshing and toning, non-invasive and generally non-irritating. As with most procedures, visible results from CoolRestore Elegance will vary from person to person.

What to Expect During and Immediately After the Treatment:

- After CoolRestore session your skin may experience temporary irritation, redness, or tightness. These reactions are all normal, and may typically resolve within 48-72 hours depending on your skin sensitivity.
- The following sensations may be experienced within a few hours after CoolRestore session: tingling and stinging in the treatment area.
- Majority of CoolRestore session customers see the results immediately after treatment and their skin may feel tighter and toned with appropriate home care to maintain treatment results.
- CoolRestore session treatments are recommended every one to two weeks depending on the skin type and condition for optimal results.
- Client experiences may vary. Some people may experience a delayed onset of the previously mentioned symptoms.
- Please, contact us immediately if any unusual side effects occur or if symptoms worsen over time.

Next Steps

- After CoolRestore session Treatment your skin needs to be protected of sunburn/sun damage. You should avoid excessive sun exposure and use a minimum of SPF 40 sunscreen.
- Drink plenty of water to keep your body and skin hydrated.
- Smile, positive energy improves health.
