SA Police issue scam warning after fraudster impersonating NBN calls cybercrime unit

By Charles Brice, ABC News, 5 November 2020

South Australian police have issued a warning about a new scam targeting Adelaide locals, after the force's own cybercrime unit was among the recipients of one of the deceptive phone calls.

SA Police said scammers were ringing Adelaide landlines, advising recipients that their computers had been hacked and directing them to a website imitating the National Broadband Network (NBN).

"There is an NBN scam currently cycling through Adelaide landline numbers, and the Financial and Cybercrime Investigation Branch (FCIB), who investigate such scams, were one of the numbers to receive a call," police said in a statement.

To better understand the fraudulent operation, a member of the FCIB using secure software followed the caller's instructions and was led to a "poorly designed" website.

"The obvious indicator that this website is not affiliated with the NBN is that the text preceding the '.com' is weebly — a webhosting site," police said.

The officer was then told to carry out steps which resulted in remote

access software being downloaded.

"The caller tried to reassure us that the software would help fix our internet problem," police said.

"We informed the caller that we couldn't open the program, so he had us click on [other] buttons, which attempted to download further executable programs.

"After we kept experiencing problems, the caller terminated the call."

Police suspect the scammer was attempting to gain access to personal information, including passwords for online banking.

They urged the public not to engage with scammers, and said the incident demonstrated that "no-one is safe from receiving scam robocalls, not even the police".

"Our advice to the community is to not download software that you are not familiar with, and never at the direction of someone over the phone," police said.

"If you receive a call and cannot be certain who you are speaking to, hang up the phone and call the organisation back on a known, reputable number."

NHW HELPING THE COMMUNITY

Neighbourhood Watch areas work against crime: the public are the eyes and ears for the police in our neighbourhood.

Keeping people informed, being observant and alert, is being proactive against crime. The police can only be in one place at a time, and the area they cover is large.

Any information the public can give Police helps in their investigations.

RURAL FIRE PREVENTION

Fires can cause serious harm to people and properties. Whether deliberately lit or caused by reckless or negligent actions, fire can kill. Know your responsibilities, take positive action and report suspicious behaviour to police.

To help keep your property safe from fire, consider implementing these crime prevention tips:

- Erect fences and gates to identify your property boundaries – indicating private property.
- Immediately repair or replace any damaged sections of fencing or gates.
- Ensure security and warning notices are visible to people entering your property.
- Keep fertilisers and other chemicals in a secure location.
- Store petrol, diesel or other flammable fuels in secure areas and locked away when not in use.
- Inspect your property regularly to ensure rubbish, including glass bottles, are disposed of immediately.
- Remove hay from fields as soon as possible after harvesting and store it away from fuels, flammable goods and homes.

If you see anything suspicious immediately call police on 131 444. Keep a note pad in the car and record helpful details including:

- location of the suspicious activity i.e. RPA number and property name, road name, or identifying landmarks
- vehicle details i.e. registration number, make, model, colour and any distinguishing features (e.g. dents, stickers)
- characteristics of anyone acting suspicious i.e. age, gender, weight, height, hair colour and clothing.

For further information contact your local police station or visit www.police.sa.gov.au
