Integumentary Review of System

Entire skin surface is warm, dry, and color is appropriate for ethnicity. Entire skin surface is without breaks and without areas of unblanchable redness. Mucous membranes pink and moist.

Edema

No edema present

PEDIATRIC

Psychosocial Review

Behavior/Affect, Appearance, Speech appropriate to situation. Cooperative with memory intact.

Neurological Review

Alert and oriented. Speech clear and appropriate for age.

Affect/Behavior appropriate to situation. Sensation intact without numbness. PERRL. Facial movements symmetrical. Swallowing without difficulty. Moves all extremities equally.

Head and Neck Review of System

Head symmetrical. Eyes open spontaneously. EENT no drainage, no inflammation, and no abnormality. Nostrils patent. Neck supple. No difficulty swallowing.

EENT Review of Systems

No drainage, no inflammation, and no abnormality.

Respiratory Review of Systems

Respirations unlabored & symmetrical. Regular Rhythm & Depth. Breath sounds clear, no cough. No shortness of breath. No devices or tubes.

Cardiovascular Review of System

Heart Sounds S1 S2, regular rate & rhythm. No devices or tubes present.

Neurovascular Review of System

All extremities warm to touch with 2+ peripheral pulses present. Nail beds pink, with capillary refill less than or equal to 2 seconds.

Gastrointestinal Review of System

Abdomen soft, no tenderness, nondistended, bowel sounds present

x4, no pain with palpation, no nausea, vomiting, diarrhea, or constipation. No incontinence of stool (if age appropriate). No devices or tubes.

Genitourinary Review of System

No complaints of pain, frequency or difficulty voiding. No incontinence of urine (if age appropriate). No drains present.

Musculoskeletal Review of system

All extremities present with functional ROM all limbs. No special devices. No joint or musculoskeletal abnormalities or contractures. No swelling in joints.

Integumentary Review of System

Entire skin surface is warm, dry, and color is appropriate for ethnicity. Entire skin surface is without breaks and without areas of unblanchable redness. Mucous membranes pink and moist.

NEWBORN

Neurological Review

Reflexes intact. Cry strong/ lusty. Normal tone. Moves all extremities.

Head and Neck Review of System

Head symmetrical. Eyes open spontaneously. No abnormality. Neck supple. No difficulty swallowing. Fontanel flat.

Respiratory Review of Systems

Respirations unlabored, regular. Rate 30-60 breaths per minute. Chest symmetric. Breath sounds clear in all lobes.

Cardiovascular Review of System

Heart rhythm regular. Rate 120-160 beats per minute. Nail beds pink. Brachial and femoral pulses palpable bilaterally.

Gastrointestinal Review of System

Abdomen soft and flat. Bowel sounds present. Eating. Stooling. No devices or tubes.

Genitourinary Review of System

Voiding. No drains present.

Musculoskeletal Review of system

Able to move all extremities, all extremities present.

Integumentary Review of System

Skin intact; elastic, no abnormalities, color is appropriate for ethnicity. Mucous membranes pink and moist.
