### 4. First Aid Measures

**Emergency and First Aid Procedures**

**Inhalation:**
If user experiences breathing difficulty, move to air free of vapors. Administer oxygen or artificial respiration until medical assistance can be rendered.

**Skin Contact:**
Irritation may result. Immediately wash with soap and water.

**Eye Contact:**
Immediately flush with water, remove any contact lenses, continue flushing with water for at least 15 minutes, then get medical attention.

**Ingestion:**
Call your local poison control center, hospital emergency room, or physician immediately for instructions.

**Note to Physician**
Call your local poison control center for further information.

### 5. Fire Fighting Measures

**Flammability Classification:**
OSHA Class IC

**Flash Pt:**
40.00 F Method Used: TCC

**Explosive Limits:**
LEL: 1.00 UEL: No data.

**Autoignition Pt:**
No data.

**Special Fire Fighting Procedures**
Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Storage containers exposed to fire should be kept cool with water spray to prevent pressure build-up. Stay away from heads of containers that have been exposed to intense heat or flame.

**Unusual Fire and Explosion Hazards**
No data available.

**Extinguishing Media**
Use carbon dioxide, dry powder, or foam.

**Unsuitable Extinguishing Media**
No data available.
6. Accidental Release Measures

**Steps To Be Taken In Case Material Is Released Or Spilled**

**Cleanup:**
Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Shut off ignition sources; keep flares, smoking or flames out of hazard area.

**Small Spills:**
Take up liquid with sand, earth or other noncombustible absorbent material and place in a plastic container where applicable.

**Large Spills:**
Dike far ahead of spill for later disposal.

7. Handling and Storage

**Precautions To Be Taken in Handling**
Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this container.

**Precautions To Be Taken in Storing**
Keep container tightly closed when not in use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.

8. Exposure Controls/Personal Protection

**Respiratory Equipment (Specify Type)**
For OSHA controlled work place and other regular users --Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors. A dust mask does not provided protection against vapors.

**Eye Protection**
Safety glasses, chemical goggles or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.

**Protective Gloves**
Wear impermeable gloves. Gloves contaminated with product should be discarded. Promptly remove clothing that becomes soiled with product.

**Other Protective Clothing**
Various application methods can dictate the use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure. A source of clean water should be available in the work area for flushing eyes and skin. Do not eat, drink, or smoke in the work area. Wash hands thoroughly after use. Before reuse, thoroughly clean any clothing or protective equipment that has been contaminated by prior use. Discard any clothing or other protective equipment that cannot be decontaminated, such as gloves or shoes.

**Ventilation**
Use only with adequate ventilation to prevent buildup of vapors. Do not use in areas where vapors can accumulate and concentrate such as basements, bathrooms, or small enclosed areas. Whenever possible, use outdoors in an open area. If using indoors, open all windows and doors and maintain a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea or eye-watering -- Stop -- ventilation is inadequate. Leave area immediately. If the work area is not well ventilated, then do not use this product. A dust mask does not provide protection against vapors.
