Comments: I'd like to thank my Dad for everything he does for me to make racing possible. He's went above and beyond since I was 5 years old to make sure I had the best experience possible every time I threw a leg over a bike. Without him none of my success would be obtainable. There are no words to express the gratefulness and the blessings I've received from this sport. From lifelong friends to hard-learned lessons, this sport has left a major impact on my life and helped shape me into who I am today, and I'm better for it. I'd like to thank SERA as well. Times are tough and support to make a great series happen isn't always there, but you all always pull through and make it happen. If it were not for the great people of this series and their massive efforts we wouldn't have the great races we have and I'm thankful for what SERA does to continue racing each year. I look forward to the future for SERA and wish everyone involved nothing but the best. I'm honored to be a part of this family.

Secondly, I most definitely and undoubtedly owe a great thanks to my mother and father for supporting me and making it possible for me to race. With out my father I would still be broke down on the side of trail somewhere and I don't know what I would do without him, and my mother is the best pit crew/manager a rider could ever ask for.
