About Us

HISTORY

Sleepy Hollow Campground began on our family farm in 1964 by our grandparents, Grace & Doc Shunk. It was extremely popular for years but was in great need of a facelift by the 2000's. Renovations began in 2020 to modernize the campground.

THIS IS US

The campground is still owned by the Shunk family. Angie & Stacey Shunk, along with their 4 kids have begun this labor of love to bring the property back to life. Hope you enjoy it as much as we do!

AMENITIES

We like to say nature is our #1 Amenity. Please take some time to enjoy the quiet sounds of nature.

HIKING TRAIL

We have a path that connects to a county hiking trail. It's located between RV08 and the open tent area. Note: the path doesn't go in a loop, so walk as far as you would like then turn around. :)

FROM OUR FAMILY TO YOURS

Thank You!

Dear Guest,

We are so thankful that you choose to stay with us. Renovating the campground has been a labor of love over the last few years and we are so thankful to keep the family campground tradition alive.

We know we don't have all the amenities or bells and whistles, but our family loves to stay at the campground to escape urban living and reconnect with nature. I hope you experience this as well and Sleepy Hollow is a place you come back to year after year! If we can make your stay more enjoyable please reach out and let us know.

Thank you so much, Angie & Stacey (and kids)
