

VN-DC-506I8

Constant Voltage Ceiling Speaker

Features

- Constant voltage ceiling speaker for public address and background music system, compatible with 70V~100V PA amplifier.
- Flush ceiling mounting design with white metal dustproof grille, neat integrated decoration effect.
- Built-in matching transformer, low signal attenuation for long distance wiring and multi-speaker parallel connection.
- High sensitivity speaker unit of 91dB, clear sound for voice announcement and background music playback.
- Full range driver for both BGM and emergency voice broadcast.

Technical Specification

Output Voltage	70~110V
Impedance	8Ω
Sensitivity	90dB ±2dB
Frequency Response	100Hz~15kHz
Thickness	70mm
Rated Power	20W
