VUSJ-AC24V-1120	1120	0~0.5

### ■ Product Features

- ◆ Utilizes a high-heat-dissipation aluminum alloy casing and a high-transmittance light cover.
- ◆ High-brightness surface-mount LEDs (maintains 70% of light flux), with a long lifespan, high luminous efficacy, and pure color.
- ◆ Constant current AC24V driver, ensuring stable performance.
- ◆ Environmentally friendly - free from environmentally harmful mercury pollution, promoting green initiatives.
- ◆ Energy-saving - consumes only 50% of the power compared to traditional fluorescent lamps.
- ◆ Long lifespan (up to 50,000 hours).
- ◆ Controlled through the 485 communication protocol, enabling adjustable spotlighting and color changing.
