VUWLS-01 Water Leakage Sensor

Product introduction

- Used to detect water leaks for computer room
- Support leakage location display
- Detection rope, maximum length ≤ 1500 meters
- Support LED display, Support sensitivity setting
- Provide standard Modbus communication protocol

VUWLR-01Water Leakage Detect Rope

Product introduction

The detect rope is used with a water leakage sensor. As soon as water intrusion is detected, an alarm is activated and the leak location is indicated. Its resistance is uniform, the error is within 0.5%, and it has detection positioning stability and accuracy for leakage detection systems.

Product specifications

Rope diameter	6.0mm±0.2mm
Rope color	Yellow, Black, Red
Wire length	15m
