

Getting Rich.

I am _____

I am getting rich

It's funny, isn't it? Hidden in plain sight.

Manifestation, gifts, intuition, skills to bring your intentions to light. You're aware and practiced enough to use them for your every aim. Where should we aim? What should our two words be? "Getting Rich"

We use our languages to share our thoughts and dreams. When we apply ourselves fully to any endeavor it actualizes.

Now, what is it about "getting rich" that gives us so much power to attain everything we want? As richness is the "obtainment" of our desires (Wattles, 1910, The Science of Getting Rich), "getting rich" means we seek to obtain. We work to receive.

"Getting Rich" is both the journey and the destination. With the mantra "Getting Rich" we remind ourselves of our purpose. Our purpose is "getting rich".

I am getting rich by writing this. Thank you.
