

EuropeLIFT

optimize reaching

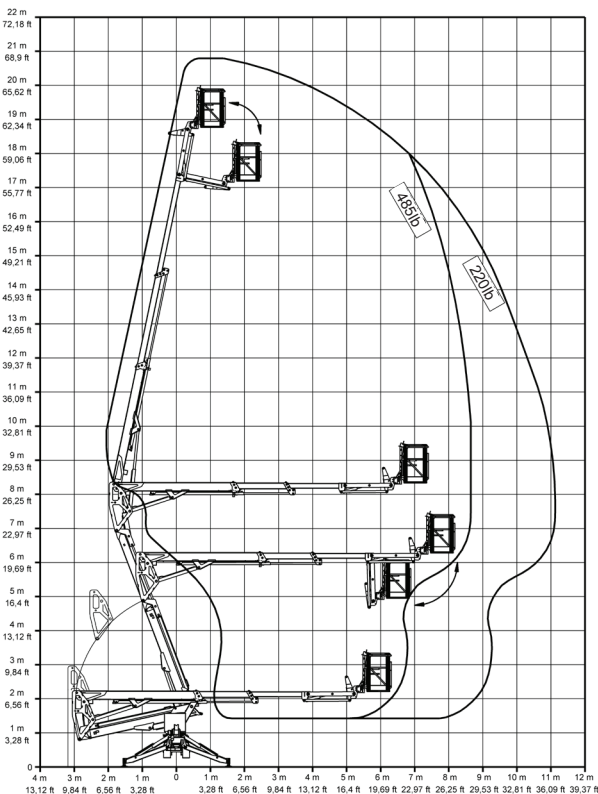

6234X

- Working height: 68ft
- Platform max. capacity: 485lb
- Max. horizontal Outreach: 35ft (220 lb)
- Up & Over clearance: 26ft
- Min. Machine width: 2ft 7in
- Articulated telescopic boom with moment controll system
- Flyjib: 4ft 3in
- Hydraulic platform rotator
- Track setting in width and height
- Massive working platform
- Auto chassis level
- Auto-home function
- Cable Remote controll for drive and outriggers
- Wifi internet diagnostic
- Short training time

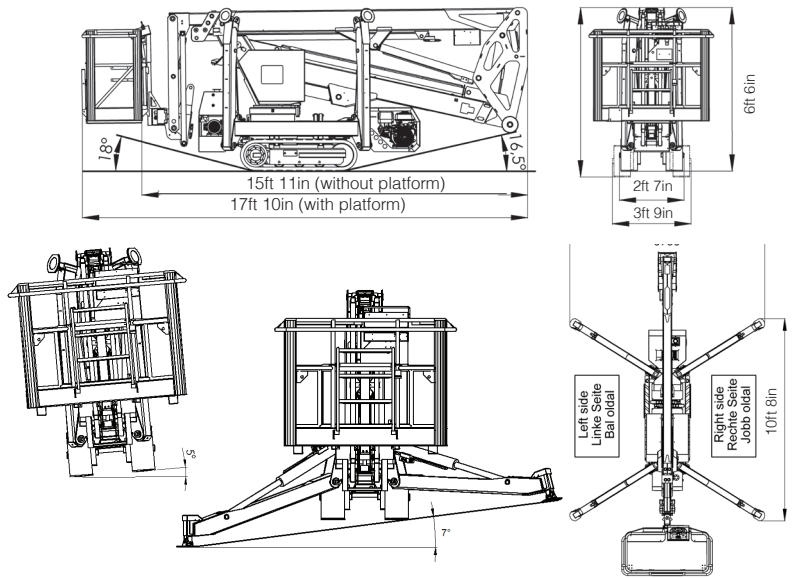

TRACKED MOUNTED BOOM LIFT

Technical data	6234X
Working Height	68ft
Platform Height	61ft 8in
Horizontal Reach (485lb)	27ft 6in
Horizontal Reach (220lb)	34ft 5in
Max. Platform capacity	485lb
Slewing	365°
Flyjib	4ft 3in
Platform dimensions	3ft 11in x 2ft 7,5in x 3ft 7in
Platform rotator	2x65°
Transport lenght	17ft 10in
Transport lenght without platform	15ft 11in
Transport width without platform	2ft 7in
Transport height	6ft 6in
Total weight	6460lb
Outrigger footprint Outrigger plate outer edge	10ft 8in
Gradeability	6,9%
Energychain	Inside

EuropeLIFT

TYP: 6234X

STANDARD FEATURES

- 68ft working height
- 35ft horizontal reach
- 115 V AC & Honda IGX390 Gasoline engine with electric speedcontrol
- Up & Over clearance 26ft
- Auto chassis leveling and Auto-home function
- Non marking tracks
- Width and height adjustable tracks (manual)
- Aluminium basket with wide tool tray, safety handrail
- Propotional electro-hydraulic control by fingertip joysticks
- Cable remote controll for track outriggers and jib
- Ground pressure sensors on every outrigger plates with visible and accousting signal
- Ground and work platform control
- Chassis level sensor 1° with accoustic alarm
- 115V plug in the work basket
- Lower and upper controls tarpaulin covers
- Hydraulic platform rotator

OPTIONS

- Custom colour
- Outrigger plates
- LI-ION battery Power source
- Air and water line to platform
- LED flashing lights on outriggers
