January 16 at 3 PM**

Music by John Williams

This lecture explores the birth and growth of the American musical, and how it reached maturity during the "golden age" of Rodgers and Hammerstein, Lerner and Loewe, Frank Loesser, and others. Using **multi-media recordings** and **live performance**, a former Broadway conductor and arranger discusses the musical's past, present, and future, and exactly what it was that made the great **Broadway** shows great.
