HOW WILL LASH EXTENSIONS SOLVE MY LASH TROUBLES?

Do you have sparse, unruly lashes, that just grow in different directions?

Volume Lash Extensions will fill the gaps, giving you a fuller looking lash line. The application of the extensions will be applied to the lashes making sure to create a more straight directed extension to show formation and a flush finish rather than unruly like the natural growth.

Are you of Mature Age and your natural lashes are becoming a-lot shorter and finer than they used to be? Looking for something to enhance your natural lashes?

Classic Lash Extensions are perfect for you, These will be extremely light in colour. You will be able to get the length and curl added to your natural lashes, all whilst brightening and opening up the eyes.

HOW WILL LASH EXTENSIONS SOLVE MY LASH TROUBLES?

Needing to save some time in your rushed mornings?

All Lash extension types are suitable for everyday look. In saying this the end results will vary dependent on the amount of your natural lashes. If you have a very little amount, fair in colour, with some length on your side, volume will be perfect this will fill your lash line and give you a glam everyday look.

If you're someone who has a thick lash line and just want to enhance what you already have Classic Lashes will be your dream set. These will give you a curl to your lashes lifting the appearance of your lashes. Depth of colour can be added and reduced with the diameter of extension used.

Hooded Eye Lids? Different Sized/Shaped eyes? close set eyes? wide set eyes? Need to cover an insecurity that is more noticeable to you than everyone else?

Lashes at Bee's Lash Boutique are custom created to you and will always be aimed for symmetry between both eyes. This is through carefully mapped out and skill in attention to detail. Using specific lengths and curls to create the perfect set for your facial structure.

Styling is of utmost importance when correcting imperfections on the face especially around the eyes. For those with Hooded eyelids it is important to have the lashes covering the skin fold where the hooded lid is most prominent on both eyes, which will give the effect of a seamless eyelid, thus hiding hood behind the lashes.
