

Dear Hollis Community Council:

Hollis EMS is requesting funds from the Hollis Community Council to conduct a 1<sup>st</sup> aid/CPR/AED class open to Hollis residents 16 years of age and above.

Class will be held at the Hollis Fire Hall some time in February. Class is about 4 – 5 hours and teaches basic 1<sup>st</sup> aid skills along with CPR and use of an AED.

Paul Randall and Sandy Curtis (both certified AHA Instructors) are donating their time for this class. Normally this class is \$85.00 per person.

We are asking the community council to provide funding to purchase the student books (\$3.00 each) as well as the CPR certification cards \$22.00 each for a maximum of 15 students and a total of \$375.00.

Thank you for your consideration on this.

Sandy Curtis

EMS Captain

Hollis VFD
