“...the experience is magical.”

– TechCrunch

Call the Primerica sales phone number to get your customized quote for the Primerica discount!

“My neighborhood isn’t the safest, and I have a teenage daughter with a history of sneaking out. I had a sensor put on her window, and, with the system armed at night, she is deterred from attempting to sneak out. I love my Vivint Smart Home system, and I even get a 10% discount on my homeowner’s insurance! Vivint has put my mind at ease. Thank you!”
– Ebony, KY

“What I like about the system is being able to control lights, being able to watch the kids, and the ability to control the thermostat, which has been economical on our bill cost.”
– Leroy, MO

“Recently, a man tried to get into my house at about 3:20 a.m. while we were gone. He tried to enter a door code four or five times, and he probably would’ve gotten into my house had I not had my new Vivint system. It’s amazing! The man has even been identified thanks to the Vivint Smart Home camera footage. My old system consisted of a glass break detector and a couple of door sensors. Now, for not much more, I have complete control of my house. We don’t live in the best neighborhood, and it makes me feel safe at night knowing that I can turn on the system and not worry about anyone coming in. I love everything about it!”
– Alfred, OH

“Shortly after I bought my house and had my alarm system installed, someone broke into my house. I was already on my way home from work when I got the alarm notification, but the police still beat me there. Fortunately nothing was taken because the alarm scared off the burglars. They hit several houses in a row on my street, and then went back and hit them again about a week later. However, the second time around, they skipped my house! I’m so grateful for my alarm system!”
– Elizabeth, OH

Primerica and Vivint are partnering to present another great way to protect you. Vivint is a leading and award-winning company that is taking the industry by storm. Both Primerica and Vivint are dedicated to protecting Main Street families!

"It's an update on Vivint's Smart Home with a slick capacitive touch screen control panel."

THE WALL STREET JOURNAL

"You'll be able to enjoy the peace of mind without the eyesore that most security systems inflict."

dwell
