

May 1, 2024

Greetings,

Beginning tomorrow, May 2nd, we have an 80% chance of widespread showers and thunderstorms, and then again, Friday May 2, 2024, we have a 90% chance of morning showers and thunderstorms.

We have no way of knowing what the rainfall will be. To that point, it is suggested that you stock up on supplies before the storms return.

I trust you will find this information helpful.

Kind regards,

J.A. "Skip" Blackstone
Mayor
City of Ivanhoe
