

OT, PT, Speech Therapy,
Feeding Therapy,
Incontinence Therapy

1

CALL OUR OFFICE

We have three locations
to serve you.
(509) 701-7651

2

THE EVALUATION

We will evaluate your
child and set up a
program specifically for
their needs

3

APPOINTMENTS

We practice the
Masgutova Method
integrating reflexes.

4

HOMEWORK

Our team will send you
with a home program.

All babies are born with 22 primary reflexes that are “programmed” to be automatic responses and set children up to develop in their natural environments. If those reflexes did not emerge during the birthing process or someone has gone through emotional or physical trauma, they are more prone to developmental delays and mental health disorders including ADHD and Autism. At Empire Pediatric Therapy we integrate those 22 primary reflexes and more!
