Dear Trustees,

Lorain County Storm Water Management District has received complaints of conditions and obstructions that have caused the backing up of water along stretches of ditch in your area. The District will be investigating these stretches of waterways in your area over the next few weeks. As a courtesy we wanted to inform you that you may see some of our employees or consultants walking along or in the waterways. The attached map shows the approximate location of the ditch in blue.

This letter serves as notification under Ohio Revised Code 6151.14 that Lorain County will investigate these stretches of ditch. The surveying will remain within the immediate areas of waterways and their perspective banks. Please let us know if you have any questions or concerns by calling or emailing me with the contact information below.

Sincerely,

Donald C. Romancak  
Storm Water and Community Development Coordinator  
Lorain County Storm Water District
