Stang Road Resurfacing & Bridge Replacement Project

Mistake Becomes Opportunity

Amherst Township and the Lorain County Engineer planned a joint 2019 project for Stang Road. The work included the removal and replacement of the Stang Road Bridge, along with the repair and resurfacing of Stang Road from Oberlin Road easterly approximately 3300 linear feet. Only half of Stang Road was to be resurfaced in 2019, as the Township did not have the funds to complete the full length of Stang Road.

The total estimated cost of the project was estimated to be \$344,000. Amherst Township was successful in obtaining an Ohio Public Works Commission (OPWC) grant in the amount of \$306,160 to cover 89% of the estimated project cost. After a public bid, a construction contract in the amount of \$319,448.75 was awarded to Denes Concrete in the summer of 2019.

With the 2019 paving season quickly coming to an end, Plas Paving, who was working as a subcontractor to Denes, completed the milling of Stang Road in October. Unfortunately, they were apparently not clear on the paving limits and proceeded to mill the entire length of Stang Road from Oberlin to West Ridge, well beyond the 3300 linear feet as described in the project scope.

Although Plas was well aware that the error was theirs alone, the Amherst Township Board of Trustees elected to work with them to complete the

additional 3,463-ft long by 22-ft wide section of Stang Road, as the Trustees had planned to resurface this easterly section of Stang Road in 2020, depending upon available funding. The Lorain County Engineer had provided an estimate of \$132,400 to resurface this 3,463-ft section of Stang Road with a 1.5-inch overlay.

Plas agreed to pave the additional length for the materials cost only, and the Township was agreeable if the following conditions were met; 1) the OPWC District-9 Integrating Committee Agreed to the project scope expansion and agreed to provide the full 2019 grant award to Amherst Township, 2) the Township would pay only for paving materials at a cost not to exceed \$30,690.75, and 3) Plas, as a subcontractor to Denes Concrete, would not receive payment until after the Township received their first half property tax payment in 2020, so the Township could meet payroll and cash flow requirements.

All parties reached agreement, the net effect being that Amherst Township had a \$132,400 project completed at a cost of \$30,691.

The Amherst Township Board of Trustees would like to thank the Lorain County Engineer, Denes Concrete, Plas Paving, and the OPWC District-9 Integrating Committee for their cooperation in turning this mistake into an opportunity.

*Building Inspections are not required. It is recommended that residents hire their own inspectors.

DRIVEWAY APRONS

Residents are also reminded that when a road project requires modification of a drive apron, as a general rule, the drive apron modification will be completed with the same material as the road project. In all cases, maintenance of a drive apron is the responsibility of the property owner.

Planting in Road Right-of-Way

Residents should not landscape or plant near road intersections or inside the road right-of-way. Generally, the road right-of-way is 30 feet on either side of the centerline of the road. If planting occurs in this area, homeowners should not be disappointed if plants are destroyed or removed due to maintenance or repair. Trees should not be planted in this area. If storm sewers run across your property, it is better not to plant trees, shrubs, or other vegetation too close to these lines in order to minimize the chance of any roots penetrating these lines and causing a blockage. Please be aware of any visibility issues that may be caused due to trees and shrubs growing near an intersection or the road right-of-way. Property owners are also responsible for removing dead branches of a tree that overhangs the road.

Lorain SWCD

The Lorain Soil & Water Conservation District (**LSWCD**) is having their **5th Annual Big Tree Contest**. This year they are looking for Lorain County's biggest Sugar Maple (*Acer saccharum*). Largemouth Bass, Bluegill, Hybrid Bluegill, Channel Catfish, Yellow Perch, Redear Sunfish (Shellcrackers), Fathead minnows, Japanese Koi, and Triploid White Amur are all available. Internet &

Cable TV Providers

Several residents have requested the Amherst Township Board of Trustees to authorize “WOW” Cable and Internet service in the Township.

The Amherst Township Board of Trustees has no authority to authorize, restrict, or regulate the cable or satellite internet and video service providers that can operate in the township.

The Ohio Department of Commerce has some authority to authorize video service in an area, as specified in Ohio Revised Code Section 1332.24.

The Township has the authority to set a video service provider (VSP) fee, defined in ORC Section 1323.32, but this fee must be applicable to all VSPs authorized to operate in an area by the Department of Commerce.

“WOW” chose to operate in the City of Amherst. Because “WOW” utilized city utility poles, they required the city’s approval for the use of the utility poles. It is possible that township residents mistakenly believe a video or internet service provider must obtain local permission to operate in an area, as they become familiar with the negotiation that occurred between the City of Amherst and “WOW” for use of city owned utility poles.

If residents desire another option for a cable or internet provider, they are encouraged to write that provider and request their service. If enough people are interested, another provider may find it worth the investment to branch out into our township.

Ways to protect yourself from Medicare errors, Fraud and Abuse

It is imperative that seniors treat their Medicare card and Social Security card like they would any other credit card. One should never give out the account numbers, especially to a solicitor on the telephone. You can also guard your card/account by not carrying it in your wallet or have the numbers written on a piece of paper and carried with you.

If you have given your Medicare or Social Security number to a caller, please contact Ohio Senior Medicare Patrol (SMP) and follow the instructions at www.IdentityTheft.gov to report potential identity theft.

Medicare Summary Notice (MSN) or Explanation of Benefits (EOB) will arrive in the mail every three months and should be looked over carefully to make sure that the services charged were indeed for services rendered. Also check for double charges or items you didn't receive.

If you see any charge on your Medicare Summary Notice (MSN) or Explanation of Benefits (EOB) for services you did not receive – or, for something your doctor did not order – please **call your provider** to ask for an explanation of these charges.

If the provider's explanation does not resolve your concern, please call Ohio Senior Medicare Patrol (SMP) at:

1-800-488-6070

or complete the "Contact Ohio SMP" form.

ILLNESS PREVENTION

It's cold and flu season again. Did you know that prevention is the BEST defense against colds and flu? What do we mean by prevention? Below we have listed some easy but important steps to preventing illness:

- Hand Washing is the #1 preventative way to keep you from getting sick. Wash your hands with soap and water for approximately 20 seconds; sing a round of Happy Birthday or the ABC's while washing.
- Use Hand Sanitizer if you can't get to soap and water immediately. Keep a small bottle in your car and or your purse. Make it a habit to use it as soon as you get in your car from shopping, pumping gas, touching public door handles, handling money, etc.
- When out shopping, use the sanitizing cart wipes before placing your hands on the handle. Wash or sanitize your hands when you are finished.
- Don't touch your face. Most of us touch our face hundreds of times throughout the day.
- Get the flu shot yearly, especially if you have any underlying medical condition that may cause you to become hospitalized should you get the flu.
- Avoid shaking hands. Either fist bump or elbow bump when you greet someone.
