PLAY NOW, PAY LATER

TEACHING SUMMARY

Key points and insights from
"Play Now, Pay Later"
by Pastor Max's Teachings.

Success is personal and must be defined according to God's vision for our lives, not simply by earthly achievements. Serving God does not guarantee an easy or successful life; there are principles that govern different areas of life, and we must learn to apply them. Everyday the opportunities to "play" will present itself and you need to choose to live life God's way and fulfil His purpose, doing so requires courage, discipline and obedience. Like Samson's parents in Judges 13, we must learn to follow God's instructions rather than negotiate with them. The Holy Spirit reveals to us God's way, while our responsibility is to discover and obey His specific instructions. We must develop our character, overcome weaknesses and live with eternity in view.
