MINI BIO

Residing for the most part of his life in Lebanon, Andrew Khoury first joined a lot of well-known local bands before creating "Strungout", In 2008, Andy joined the metalcore band "Before We Drop Dead", which was playing gigs from underground venues to some of the biggest stages in Lebanon. In 2016, Andy became an EDM enthusiast and decided to start spinning decks.

In 2019, Andy went into EDM music production while still performing in a few mountainside venues and privates, and remaining as low key as possible, Andrew decided to go under the Alias " Andy Kay" for his productions and had decided to shift completely to Techno Music. In October 2022, Future Romance, a sub-label of Parquet Recordings, signed him into their roster, and his debut track was released on May 26, 2023.
