100% compliance with CPCB, MoEF, and state norms while optimizing disposal costs and processes.

— Provide actionable audits and solutions.

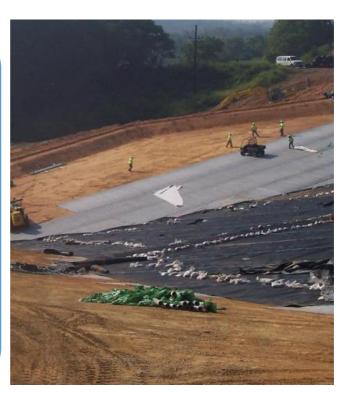

## 1. Executive Summary

As environmental regulations tighten, thermal power plants must adopt compliant and efficient methods for bottom ash disposal.

Xeed Consulting offers specialized Bottom Ash Disposal Compliance Services that help plants

- Meet legal norms
- Avoid penalties
- Enhance sustainability

#### 2. The Business Problem

Thermal power plants face:

- Stricter disposal norms for ash utilization and landfilling
- Rising costs of ash handling and disposal
- Penalties for non-compliance with MoEF & CPCB mandates
- Public and stakeholder pressure to adopt sustainable practices

Without expert audits and process fixes, plants risk regulatory penalties and reputational damage.

# 3. Xeed's Bottom Ash Disposal & Compliance:

We deliver comprehensive audits and action plans that help plants achieve full compliance while reducing operational pain points.
We offer:

- Regulatory Compliance Audits: Check adherence to CPCB, MoEF, and state rules
- Disposal Process Audits: Review collection, transport, and disposal workflows
- Ash Utilization Strategy: Recommend uses in cement, bricks, roads
- Documentation Support: Ensure readiness for regulator inspections

Key Service Components

- Disposal Facility Audits: Ponds, silos, conveyors
- Ash Handling Equipment Checks: Pumps, pipelines
- Utilization Linkages: Tie-ups with cement & brick units
- Compliance Reporting: As per statutory formats.

## 4. Key Features

Templatized Audit Frameworks: Faster and affordable compliance checks

End-to-End Coverage: From plant gate to disposal site

Sustainability Focus: Maximizes ash utilization, minimizes landfill

Actionable Reports: Clear fixes, not just findings

### 5. Industry Use Cases

Thermal Power Plants

- Bottom ash disposal audits leading to compliance and cost savings
- Strategy to convert ash into revenue through utilization

Captive Power Plants (CPPs)

- Compliance checks and process improvements
- Linkage development with local brick and cement units

**Utilities & DISCOMs** 

- Multi-plant ash management audits
- Regulatory filing and compliance documentation

6. Competitive Advantage: Xeed's Unique Approach

Templatized Compliance
Tools:

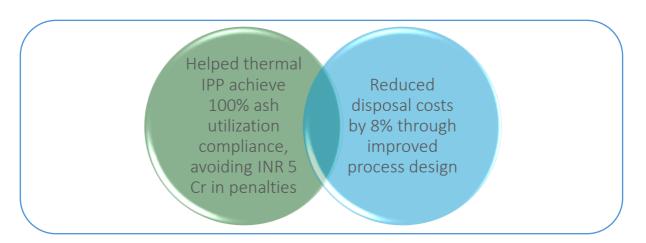

Faster and cost-effective

Sector-Specific
Expertise:

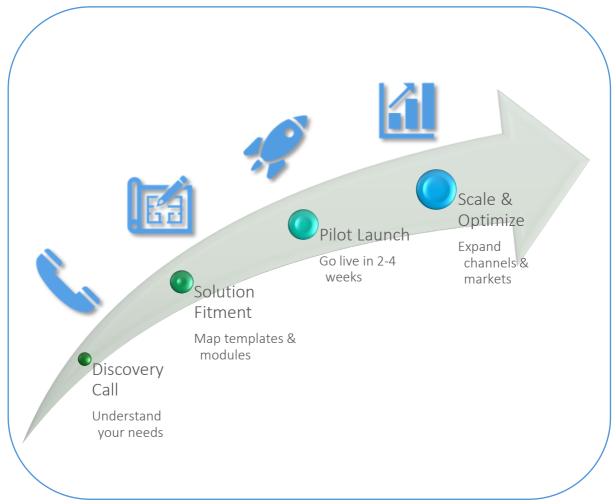

End-to-End
Engagement: From audit to utilization strategy

DPIIT Recognized:
Trusted by power sector players
