Enhance plant performance, regulatory compliance, and commercial viability.

- actionable plant audit insights and PPA reviews.

1. Executive Summary

Power sector players are under pressure to optimize generation, reduce operational costs, and improve compliance — all while managing fuel supply and long-term contractual obligations.

Xeed Consulting offers specialized Power Plant Audit & Power Purchase Agreement (PPA) Review Services that help utilities and IPPs (Independent Power Producers) unlock operational efficiencies and minimize financial risks.

2. The Business Problem

Power plants and utilities face:

- Rising fuel costs and supply chain disruptions
- Inefficient plant operations leading to higher Heat Rates
- Non-compliance with environmental and regulatory norms
- Sub-optimal PPA terms affecting revenue realization

Traditional audits are compliance-focused but miss operational performance gaps and commercial optimization opportunities.

3. Xeed's Power Plant Audits & PPA Review Services:

We deliver end-to-end operational and commercial audits that go beyond paperwork to deliver measurable improvements.

We provide:

- Plant Performance Audits: Heat rate, auxiliary power, and plant load factor (PLF) analysis
- Fuel Supply Chain Audits: Review linkage, procurement, and consumption
- Environmental Compliance Audits: Ash handling, emission norms
- PPA Reviews: Commercial terms, tariff clauses, risk exposure, and optimization opportunities

Key Service Components

- Technical Audits: Boiler, turbine, generator (BTG) systems
- Fuel & Logistics Audits: Coal, gas, and renewable fuel chains
- Financial Impact Analysis: Link plant KPIs to revenue realization
- Regulatory Compliance Checks: CPCB, MoEF, and state-level norms

4. Key Features

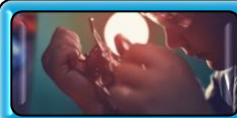

Templatized Audit Frameworks: Faster diagnosis, lower cost

Operational + Commercial Lens: Aligns technical and financial optimization
