Deliver measurable improvements in productivity, cycle times, and cost efficiency.

— Building internal capabilities for sustained performance.

## 1. Executive Summary

In a competitive and cost-sensitive world, businesses must do more with less — making process optimization a critical strategy for survival and growth.

At Xeed Consulting, we help MSMEs and enterprises across sectors like

- Power
- Telecom
- Manufacturing
- BFSI
- Retail
- Infrastructure

streamline operations, cut costs, and improve outcomes through structured, templated process optimization frameworks.

## 2. The Business Problem

Many businesses today face:

- Operational inefficiencies and process bottlenecks
- Rising costs with stagnant output
- Lack of visibility into process gaps and performance
- Siloed teams with poor coordination

Traditional consulting models are expensive, slow, and often out of reach for MSMEs..

## 3. Xeed's Process Optimisation Services:

Our structured, templated framework enables businesses to quickly identify gaps, implement fixes, and track gains.

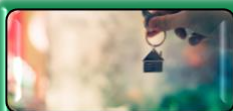

We deliver:

- Process Audit & Mapping: Visualize current workflows and spot inefficiencies
- Gap Analysis: Compare current vs. best practice benchmarks
- Process Re-Design: Simplify, automate, and standardize workflows
- KPI Definition & Measurement: Set clear goals and track progress
- Training & Change Management: Build internal process champions

## 4. Key Features

Templatized Industry Frameworks: Faster diagnosis and solutioning

SMB-Friendly: Affordable, scalable packages for MSMEs

End-to-End Engagement: Audit, design, training, and tracking

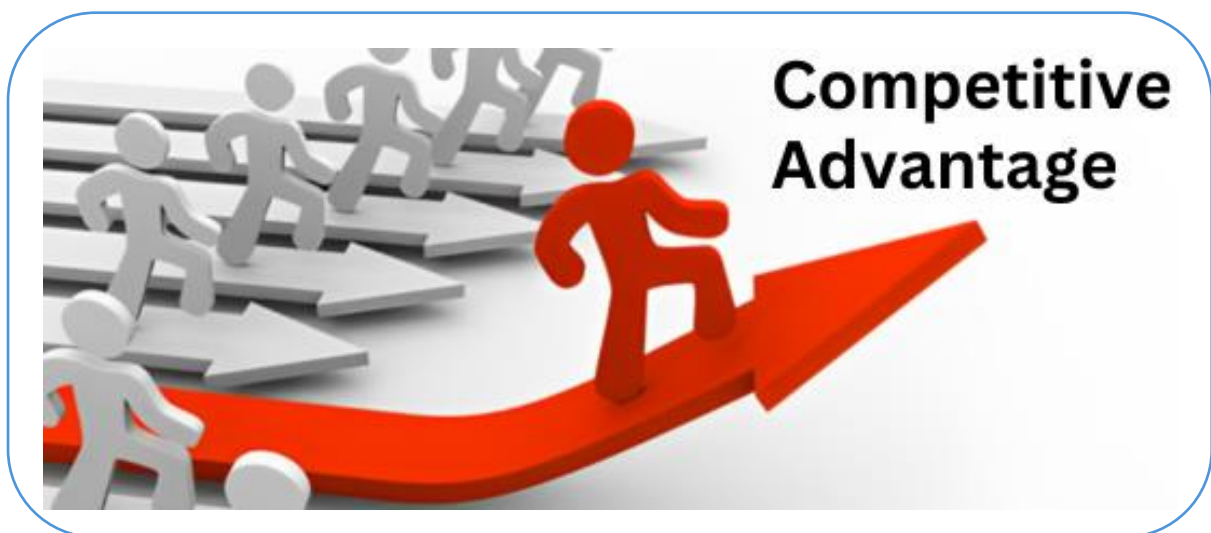

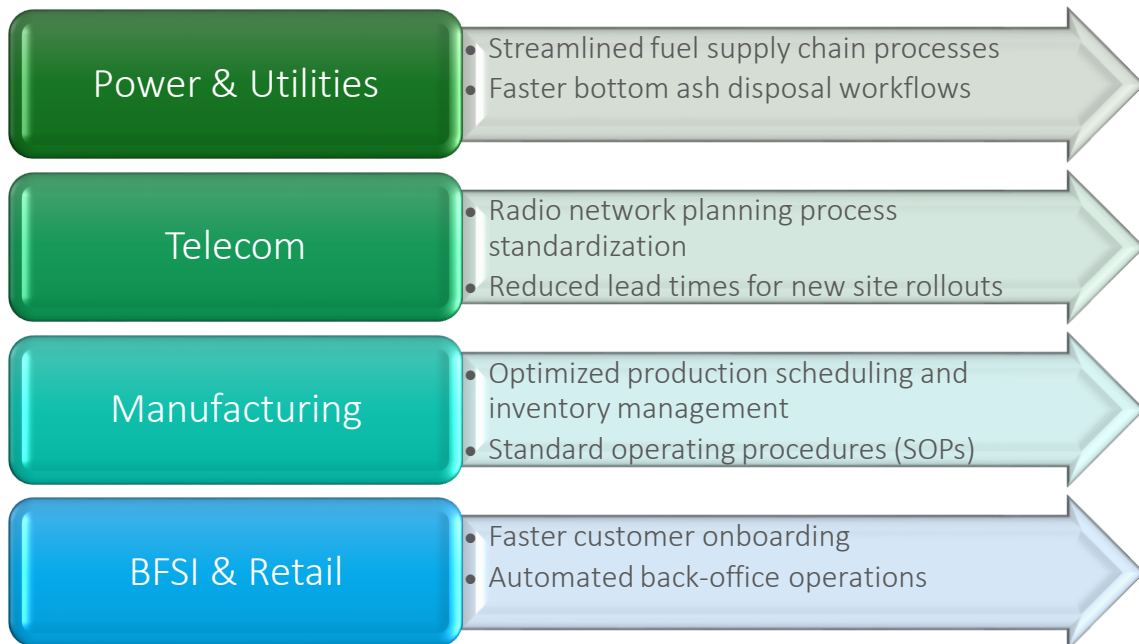

AI & Automation Ready: Process improvements designed for future tech adoption
