

EMMA Foundation

Path to "The 1%" and better, a Global Community

Contact email: Emma@EmmaFoundation.net; Maria.EmmaFoundation@gmail.com

Landing Page: We mentor you and fund your R&D or Startup project, or you work on ours for sweat equity.

Section 1:

Feeding the Soul (mind)

Emma's primary goal is to help solving the root cause of the world's problems by **"Feeding the Soul"** (the mind, the intellect, critical and holistic thinking) of the fortunate ones, so that individuals can achieve their maximum potential. Later, they will be more inclined to feed the bodies of the unfortunate and the souls of the fortunate ones, **"Trickle Down"** method.

Collaborating with provosts, deans, professors and top 1% Ph.D. students from universities worldwide to fund their research and development projects that align with EMMA's vision. -- 2024

Test your intellect:

Who has the higher probability of getting robbed?

- a) You/(more accurately, a randomly picked person)
- b) Your neighbor/randomly picked person's neighbor?

Give solid, valid reason behind your answer

See **"The 1% & Better – 8 Clubs -> P3"** menu item for more.

-- Youtube videos, in-person local meetup groups, and online teaching materials are under production.

Feeding the body

Emma's secondary goal is to provide a short-term solution to immediate needs for the unfortunate ones: **"Feeding the Body"**, with the aim that eventually they can become fortunate ones.

EMMA Foundation first international mission "feeding the body" in Philippines, 2023. See the videos of "Feeding the Children" in the menu items.

EMMA's 2024 missions are done: Medical and dental aid; feeding, donating books computers, cash to 5 remote locations in abject poverty islands in the Philippines.

Lucky you! Your Serendipity today. Read on ...

The EMMA Foundation is a unique charity organization registered in the U.S. as an IRS 501(c)(3) entity. We serve as a global philanthropic NGO and non-profit charity. Our mission involves mentoring, supporting, and funding viable business ideas and R&D projects for qualified individuals who are stuck in corporate jobs, professors, and postgraduate students. We aim to help you reach your maximum potential and live a healthier, wealthier, wiser, and happier lives with purpose. We utilize the "7 Commandments of 21stCS" (the 21st Century Science) as defined in EMMA's Mission Statement page to assist people.

Click on <Next> below

Section 2: Read, Ponder, Meditate, Soul Search

If you read this website fully, specially:

- i) This Landing Page
- ii) About the Founder and 8-Pistons Poster
- iii) EMMA's Mission Statement; "7 Commandments of 21stCS" (21st Century Science)
- iv) First chapter "Jesus Christ and a not so good woman" of the book "Book of Intense Truth"
- v) Take the short intellectual tests in the menu item The 1% and Better – 8 Clubs; P3: Intellect (Athena).

....then sit in solitude, meditate, truthfully, honestly, intellectually ponder, self-reflect, do soul searching about your life and the things that you read ...

....then most probably you will join EMMA Foundation

....then most probably you will eventually hit the point of inflection in your life for better.

We can help you to put your new understanding about life into action, practice and make it habit then you will see the magic. We spend our money, time and courses on selected few, along with your effort to help you reach your maximum potential. Then you help others.

a) Even if you are already in the top 1%, still you will benefit from it by achieving your fullest potential.

b) Why, How, Fund, Execution: We guide you to find your why, mentor you to find your how, then we fund your project and again help you to execute your viable dream that will add value to the society and for you.

c) There is no monetary cost to you to join our charity organization.

d) EMMA's long term goal is to revolutionize the current way of doing charity
from mostly only feeding the body
to putting more emphasis on feeding the soul (the mind).

e) Most probably I, as the founder of EMMA, might not even see the full result of EMMA's effort in my life time but I want to put the seed for it then let the next generation take it forward.

f) What do EMMA and I as the founder of EMMA get in return?

Answer: Our ROI (Return on Investment) are satisfaction, joy, happiness, eudemonic life, by witnessing people around EMMA are truly benefiting in the long term and rather than just temporarily or superficially.

Section 3: EMMA Feeds the Soul and the Body

a) Feeding the Soul:

We educate, mentor, train, teach critical thinking and provide venue to the smartest and most educated people, to revise and update their own moral and practical value systems and practice those to become healthy, wealthy and improve in all 8-Pistons at no cost to you. Then later, you can help others.

Click on <Next> below

- i. For selected candidates who want to be members of and volunteer for EMMA, we pay for their 3-month-long, once-a-week, live online interactive training course. This curriculum is provided by Athena, USA, and covers most of the topics mentioned in the 8-Pistons poster. **We do not ask you for any money.**
- ii. We seed-fund qualified R&D projects for industry professionals, individuals, startups, professors, and Ph.D. students in Computer Science, Engineering, High-finance, business and various other schools at global universities at no cost to you.
- iii. We help the smartest people, the top 1% of the population break free from the corporate golden handcuffs and switch from the 9-to-5 job, modern-day slavery, to being their own boss. Obviously, this is not for everyone.
- iv. The Emma Foundation not only educates and trains you on how to become a successful entrepreneur but also invests its money in your project if it is viable. **Additionally, we provide a venue through which you can progress and excel financially if you do not have your own venue.**
- v. Additionally, we provide scholarships and sponsor qualified international Ph.D. students for student visas, later assist them with green card applications in the U.S.
- vi. No matter how smart, hardworking, drive you are if you do not have proper network to likeminded, resourceful people then you will go nowhere. Emma connects you to smart, wealthy, driven, resourceful, experienced and good people.
- vii. We offer practical “8PQ course” for entrepreneur minded individuals, corporate employees, professors, and graduate students. Content of this practical course span across multiple disciplines such as, Business, Finance, Accounting, Law, Engineering, Computer Science, AI, Physics, Psychology, Sociology, Networking. Universities and other institution can incorporate our 8PQ, 3 to 6 credit hours course in their postgraduate course through our sponsored institution Athena.
- viii. 8PQ course will make you Polymathic and help you understand how the real-world works. Individual can start their own startup immediately after taking this course. Founders of any startup need broader knowledge and understanding of the world than 9-5 expert workers. Please see item 17, “Bitter Truth – Global Educational System and Experts” on page 7 in “About the Founder” menu item.
- ix. We also conduct interviews with professors and subject matter experts in various fields for our upcoming YouTube channel. This encompasses, but is not limited to, psychology, sociology, history, philosophy, science, engineering, physics, genetics, economics, business, high-finance and more. Send us email with your questions.
- x. Furthermore, we facilitate conferences, seminars, collaboration between universities around the globe. Send us and email with your question.
- xi. Please see the 7-tier mentoring concept in text block #9 on the 8-Pistons poster, the AI-based Truth Machine, and About the Founder in the menu item.

b) Feeding the body:

- i. We provide food, medicine and shelter around the world to the unfortunate ones.

Click on <Next> below

- ii. We collaborate with other charity organizations around the world.
- iii. EMMA's goal is to provide what people want but at the same time give them what they actually need.

c) Handout vs. Earned:

1. a) Give a man a fish and you feed him for a day; b) teach a man how to fish and you feed him for life.

EMMA wants to a) give a man a fish as temporary solution in urgency but b) at the same time teach him how to fish to make him independent and for long term solution for him.

2. a) Give a man a fish then he knows exactly who to come back to the next time (preferably with their vote), teach a man how to fish and you destroy your market share.

EMMA's ROI (return on investment) is not based upon short-term, shallow thinking but on the long-term, more profound positive changes in the society, therefore, EMMA doesn't want its members to come back to EMMA to get more and more charity fund, rather comeback to EMMA to help to others because they will be more healthy, wealthy and happier by joining EMMA and learning from EMMA.

For now, EMMA doesn't have any competition in its philosophy of rational and most effective charity. In the future if there are more non-profit charity organization like EMMA then that is better because EMMA gets its ROI (Return On Investment) by seeing the spectrum of disparity shrink.

Section 4: Bitter and Sad Truth of Nature – Adapt to it

The 1%: "The 1%" mentioned refers to the top 1% population of the United States and not to the top 1% of the global population. The threshold for being in the top 1% of the world population is much lower and therefore, much easier to achieve. Other nations that are better off than the US have much smaller population and therefore, may not be a good reference point. Due to dynamic nature of the world the reference points can be changed and 8-PQ can be adjusted.

The founder of EMMA believes that root cause of most of the problems in the world is lack of critical thinking, reason/logic.

There will always be a spectrum of abilities, knowledge, wisdom, skillset, IQ, GQ, EQ, 8PQ, and value system among people. ● There will always be "The 1%". ● Setup your path as you wish.

Munzer Haque

Tier 1: Top 1%
Tier 2: Next 2% - Affluent
Tier 3: Next 5% Upper Middle Class
Tier 4: Next 10% Middle Class
Tier 5: Next 20%; Lower Middle Class
Tier 6: Next 30% (Confused)
Tier 7: Bottom 32% (Desperately Need Help)

Please refer to Text Block Section 9 on the 8-Pistons Poster for details.

● EMMA's goal is to educate people in critical thinking on a tiered basis.

● You will be proportional to the average of the 5 people you hang around the most.

Click on <Next> below

1. **Feeding the soul and the body:** My name is Munzer Haque, and I am the founder of the EMMA Foundation. The Emma Foundation is a non-profit NGO registered in the US as an IRS 501(c)(3) global philanthropic entity. One of the main goals of the Emma Foundation is to teach people how to think, rather than prescribing what to think. EMMA spends a smaller percentage of its resources to feed the body - feeding the hungry, providing shelter to the homeless, medicine to the sick, and allocates more resources to feed the soul - the mind, through which one figures out good from bad, right from wrong, and truth from lies. We help people to improve their ideology, value system and practice it.
2. **EMMA's Core Value:** The founder of EMMA believes that root cause of a) most of the problems in the world and b) the reason most people do not reach even a fraction of their own maximum potentials is lack of clear & critical thinking, reason/logic, honesty, fairness, along with emotional control. And therefore, EMMA's primary goal is to train people for critical thinking, fairness and emotional control, according to where each individual's current fitness level matches in EMMA's 7-tiers of rating.
3. **Why helping top tier people:** EMMA wants to do charity work in most effective way as possible. EMMA's conclusion is helping the top tier people, the fortunate ones, the top 1%, in the 8PQ 7-tier concept, (please see the 7-tier in text block 9 in 8-Piston poster) can have most positive impact in the world provided these people have good heart, compassionate and care for others, we train them, educated them, convince them to be that. EMMA relies on trickle down effect to see the most effective positive outcome for the maximum number of people.
4. **Why helping the lower tier people:** While helping the top tier people EMMA at the same time, helps the "unfortunate ones", the lower tiered people as well hoping the lower tiered people will climb up in the 7-tiered ladder, become fortunate one and then they will help the lower tiered people. We educate and convince them to do so.
5. **Swallow this! Why extremely wealthy and extremely poor people exist?**
Matthew 13:12 (Bible New International Version):
"Whoever has will be given more, and they will have an abundance. Whoever does not have, even what they have will be taken from them."

Laws of nature is brutal and amoral. Nature favor Snowball effect, Preto Law (80%-20% rule), Price's Law (Half of the total production is created by by the square root of that population. In the US only 18,000 of 340 million people creates half of US \$24 trillion GDP.) Make up your mind where you want to be for your long-term future?
6. **EMMA's Two Options for You:** Although EMMA is more interested in Option 2 below but knowing that most people are less interested in the philosophy of life and eudemonic life as stated in Option 2 below and more interested in making money, we also mentor, help, and fund your research and startup business or let you participate in Emma-sponsored, already-funded startups to help you get wealthy through sweat equity.
 - a. **Option 1: (Funding)** Do you want to become a multimillionaire, decamillionaire, multi-decamillionaire or more? Then join us. It will cost you time but not a dime.

Click on <Next> below

Turn your dreams, entrepreneurship ideas, or research projects into successful businesses with EMMA's seed funding and mentoring or join one of EMMA's sponsored, already funded projects for sweat equity. **You can keep your day job. We pay, not you. We reward you for your brain, time, skill, passion and drive. Take the quiz on Intellect in the menu item The 1% & Better-8 Clubs, sub-menu P3 in our website www.EmmaFoundation.net**

- b. **Option 2: (Charity)** If you are an expert in any field and passionate about it then we will interview you for our Youtube channel. Discuss about your research project, or any scientific, engineering, deep philosophy, practice, religion, stoic life, to achieve fulfillment, meaning in life. This will help you to create your own brand. We try to explore and apply all relevant, almost anything and everything under the sun including Ethos, Pathos, Logos, Mythos and real-world facts. **Please also see menu item "Feeding the Children" on our website.**

Section 5: Your Participation

Lucky you! Your Serendipity today.

I hope Emma Foundation will trigger epiphany in your mind.

If you want meaning, fulfillment, enlightenment, self-actualization, eudaimonia in life AND

- a) Make a lot of money by adding value to the society**
- b) Improve your health, live longer with mental and physical fitness**
- c) Improve your intellect, wisdom, and philosophy**
- d) Improve your relationship**
- e) and more – see 8-Pistons Poster**

... then you have come to the right place.

- i. We will mentor you on our cost. This involves fostering rational, logical, just, and impartial thought processes based on science and reason to arrive at conclusions. Subsequently, these conclusions are put into practice. **Over time, these practices become habits, and that's when you will see the magic. Becoming a member of EMMA is like being partner with EMMA.**
- ii. We would like to propose a partnership between the EMMA Foundation and your university, or individually with your professors, Ph.D. and graduate students, or with you as an entrepreneur if you are employed in a corporation. After taking some time to explore our website, please let us know if you, professors, graduate and Ph.D. students are interested in joining our mission in any of the eight roles listed in the following pages, then contact us. **You can join EMMA as a student, teacher, professor, investor, syndicator, sponsor, or entrepreneur, or all. We can arrange a one-on-one in-person or Zoom meeting with you.**
- iii. Emma's philosophy is stoic lifestyle for excellence in almost all aspects of life. Embracing deep truths, epistemology, and practicing accordingly can enhance your life and the lives of those around you. Unfortunately, there is a lack of teaching and training in this regard.
- iv. Right thinking and practice will make you healthy, wealthy, and happy. EMMA's goal is to eventually make you sagacious, perspicacious, and indefectible, helping you make money for yourself by adding value to society while finding fulfillment in life.

Click on <Next> below

You can participate in EMMA mission through any of the following ways.

1) Create your name brand through our online video Interview and Discourse:

If you are an expert, professor, graduate or Ph.D. student, or a professional working in a corporation and possess expertise in fields such as philosophy, science, biology, medicine, engineering, IT, AI, high-finance, the meaning of life, religion, history, psychology, sociology, and more, you can volunteer to be interviewed and discuss over Zoom for a few hours per week or month. These interviews will be used for EMMA's Youtube and other video channels and podcast. **Meanwhile you will get publicity to make your name brand and at the same time get satisfaction, meaning in life by advocating the Truth.**

- 2) **Charity: Donate Money:** You can passively contribute by making monetary donations and draw satisfaction by observing the EMMA's progress in improving people's lives. **Please see menu item Feeding the children.**

3) Charity: Volunteer x number of hours/week for EMMA

For those who wish to actively participate in effective altruism but lack extra funds for donations, you will have the option to pledge 10, 20, 30 hours, or more per week to work remotely as a volunteer for EMMA from anywhere in the world. This model is similar to Wikipedia's volunteer contributions. Additionally, there are various other avenues for volunteering within EMMA.

- 4) **Charity: Create a local chapter for EMMA:** You can also initiate a local chapter of the Emma Foundation, and we will provide guidance and support. Here too you can build your own brand name through EMMA and get satisfaction in life.

Business For Your Benefit with Indirect Charity

- 5) **Global Alliance of Universities (GAU):** EMMA is building a Global Alliance of Universities (GAU) network, an online platform, to tap into the top 1% professors and post graduate students from top 1% of universities all over the world to collaborate for their research and development or for their own startup business purpose, or join ours.

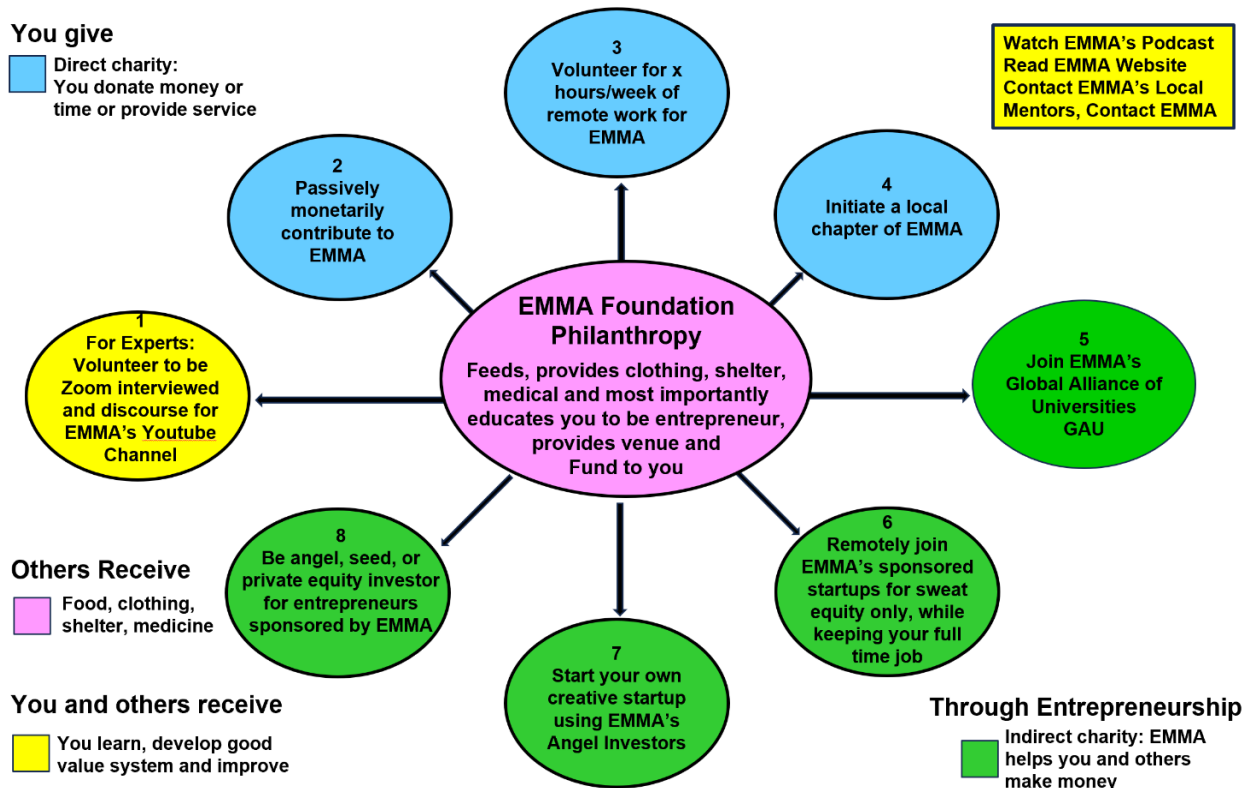

A substantial portion of the world's exceptional brainpower, skills, passion, and determination remains untapped due to a lack of effective networking and collaboration with like-minded resourceful partners on a global scale. Should Emma successfully harness even a mere 0.1% of these invaluable resources, the potential outcomes hold the promise of ushering in constructive transformations for our world. This is the central aspiration of EMMA – to unlock and channel these talents for positive change. We invite you to be a part of this endeavor; join us.

- 6) **Joining EMMA's Sponsored Startup:** **You do not have to invest in these startups unless you want to. You can participate part-time remotely in EMMA's sponsored startup while maintaining your daytime job.** There's no requirement for you to invest your money, nor you will receive any monetary compensation for your work, except for the sweat equity granted based on your contribution. The potential value of this sweat equity could be in tens of millions of dollars over time when these companies go public in a few years.

Click on <Next> below

EMMA Foundation's sponsored startups value your skills, time, and expertise more than your money. We want your brain, time, skill, passion and drive. Take the quiz on Intellect, in the menu item The 1% & Better-8 Clubs, sub-menu P3.

Eight ways to benefit from EMMA's Philanthropy

7) Start your own Blue Ocean business:

If you are a professional working for a corporation, or if you are a professor, Graduate or Ph.D. student, and if you are entrepreneur minded, driven, hard-working, smart, creative person with big dreams and wants to **start a business with your own idea** then please contact us. We will match you up with Angel Investors or EMMA itself can put in the seed money for equity of your business. You may reside anywhere in the world, still participate in our program and keep your fulltime day job.

Of course, you will have to be highly qualified in the particular area. EMMA is very selective. Contact us for more details.

- 8) **Investment:** Join EMMA's sponsored CLAP investment club. You can passively invest in Emma sponsored businesses or other investment opportunities worldwide. International fund is welcome for global investment opportunities.

Click on <Next> below

CLAP stands for Caishen, Lakshmi, Abundantia, Plutus, God and Goddess of Wealth, Prosperity, and Abundance from ancient Chinese, Hindu, Roman and Greek religion mythology, respectively. Clap's goal is to bring in the top 1% private equity and other investment opportunities to its HNWI and UHNWI members. EMMA has the access to over 100,000 SEC registered Reg. D. based investment opportunities. We analyze data very diligently.

Charity + Business: Or you can do both, charity and make equity for yourself in business.

Section 6: Feeding the body and the soul

1. **EMMA's 2023 – 20025 Missions:** EMMA has successfully completed its first overseas feeding mission, providing meals to 600 children in a poor school district in the Philippines in 2023. EMMA then completed several overseas charities in poor countries in 2024. It provided food, medicine, dental, computers and books. EMMA plans to the same for Africa in 2025. **Please see menu item "Feeding the Children".**
2. Furthermore, EMMA has plans to expand these initiatives to Africa and India. You can view pictures and videos in "Feeding the Children". Future updates will be in the '8-Piston' menu item, specifically under piston # 8, labeled 'Philanthropy'.
3. While providing physical sustenance through charity is important, it's only a small part of EMMA's mission. EMMA aims to educate and inspire highly educated adults, the best and brightest individuals, including those who are financially well-off, about how to think, philosophy of life, the importance of philanthropy, giving back to the society, and to encourage them to follow EMMA's example. **Please see 7 tiers of mingling in EMMA's 8-Pistons NFT Poster.**
4. **To assess and enhance your intellectual abilities, please explore Piston #3, Intellect, under the menu item at your left "The 1% and Better – 8 Clubs -> P3 Intellect-8PQ Athena." From there, you can estimate your qualification to fit in a specific tier of mingling as shown in the 8-Pistons NFT Poster, item 11, that shows 7 tiers.**
5. This website is still under development. Please note that EMMA's current website is in English only, but with your assistance, we can expand to include more languages. EMMA is looking for volunteers. If you are currently experiencing significant personal issues, it might be advisable not to volunteer for EMMA at this time.
6. **Although EMMA Foundation main goal is to feed the soul, the mind, by educating the next tier of people with rational and logical thinking, philosophy, meaning of life, intellectual improvement and more, as shown in the 8-Pistons of life NFT poster but because we understand that most people are interested in money first, therefore, we have integrated here EMMA sponsored startup business opportunities as well.**
7. **EMMA need to provide what people need (Intellect, Value System and habit) while providing what they want (money).**
8. There are many good books, training, valuable podcast, Youtube channels, are available that give you generic advices and motivate you to take action but they do not provide you with

Click on <Next> below

specific advice that is for you, for your business, for your personal specific situation. EMMA gives specific advices according to your specific situation. In addition, we provide actual venue through which you can in fact launch your start up. We bring in angel investors as well. Or you can work on EMMA sponsored startups.

9. In addition to teaching the masses how to think and arrive at rational conclusions, EMMA also instructs its members on how to develop habits, passions, and many other subconscious processes that are part of System 1, the Basal Ganglia, Amygdala, and the Limbic system, among others. **Please read chapter 1 of The Book of Intense Truth, “Jesus and not such a good woman” to understand the role of conscious and subconscious brain,** System 1 and 2. System 1 and 2 both works together and are not located
10. only in a specific part of the brain but spread throughout the brain. Spinal cord and gut also play part in system 1 function. Many aspects of entire neural network in entire human body are still under research.
11. EMMA applies the new discoveries by Neuroscience, fMRI (Functional Magnetic Resonance Imaging) machine, Illusion of Free Will, behavioral economics, psychology and sociology with the valuable **age-old philosophy of Stoicism of Zeno and Marcus Aurelius.** We will help you grow, not only in theory, lectures, podcasts, training courses, but also by funding your startup business ideas, your dream. **The initial emphasis on success, particularly the financial aspect, among the 8-Pistons is because material success tends to attract more attention.**
12. However, EMMA's philosophy promotes a holistic balance across all 8 pistons of success. Eight pistons are 1) Health, 2) Wealth, 3) Intellect, 4) Family, 5) Travel, 6) Philosophy, 7) Self-Mastery, and 8) Philanthropy. **Please see menu item “About the Founder” to learn about the origin of 8-Pistons of Life.**
13. The reason EMMA 8-Pistons NFT Poster has 7 tiers of teaching and intermingling system is to make the process more effective. **Please see 8-Pistons NFT Poster text block 9, the 7-tiers concept.**
14. To reach one’s maximum potential to tackle worldly problems, material and spiritual, one must first enlighten one’s own mind by replacing his/her bad ideas with good ones, with well thought out logical ideas based on science, reason and truth and sometimes with a slight touch of myth when necessary.
15. EMMA wants to feed the Soul – the mind, through which one figures out good from bad, right from wrong, and truth from lies. EMMA’s founder practices 8 Pistons and have achieved great results. EMMA is propagating its value and the process to make the world a little better place.
16. We favor objective meritocracy with some charity over blind equity. Any and all ideas in the 8-Pistons NFT poster can be modified as society changes or human, AI, ASI, AGI hybrid emerges.
17. You can reside anywhere in the world and still participate, adding value to any of the following areas **by working remotely for sweat equity only and still keep your full-time day job.**

Click on <Next> below

Your sweat equity has the potential to be valued at few million dollars in few years. **You do not need to put in any investment capital unless you want to join EMMA as an investor. Only your brain, Time, skill set, good value system and effort are in high demand, not your money.**

18. **After couple of years of your volunteer service with EMMA's sponsored startup in sponsored for US Green Card.**

19. EMMA itself doesn't make any profit by providing you and others various services. Join us in this endeavor. Please see Munzer's 8-Pistons of Life NFT Poster in our website.

Section 7: Qualification required to be member of EMMA

1. You are qualified if you have very good skill in any of the following.

- i. Software architectural design, programming, coding
- ii. Complex Web3 development; Blockchain, Tokenization, SEO
- iii. AI algorithm development for AI based Truth Machine [Wikipedia like Charity]
- iv. Causal Quantitative analysis for HFT (High Freq. stock market and commodity trading)
- v. Expertise in Healthcare, real estate, high-finance, internet-based business or skill in any other high demand industry,
- vi. Deep knowledge of mathematics; science; in philosophy, science, biology, medical, engineering, IT, AI, high-finance, meaning of life, religion, history, psychology, sociology, almost any topic, any subject, then you are qualified for Emma's upcoming Youtube channels]
- vii. YouTube video editing, linking each idea with other ideas and processing them [For Emma's upcoming Web3 based Youtube channel]
- viii. Online stores, online and social media marketing
- ix. **A desire to do smart charity work**

2. **Charity:** Volunteer for the EMMA Foundation, and help develop an AI-based Truth Machine. Participate in-depth discussions for EMMA's YouTube channel podcast. **You can also start Emma Foundation local chapter in your town.** We will guide you.

3. **Business: If you are an entrepreneur seeking angel investor or seed funding then contact us. See below.**

You can work part-time for EMMA-sponsored startup or in Plutus Investment, in exchange for sweat equity. Opportunities include:

- i. **Global Exchange for Private Equity [Currently doesn't exist - Blue Ocean Strategy]**
- ii. **Causal Quant HFT (High Frequency Trading) extremely profitable**

Click on <Next> below

- iii. **CLAP Global Investment Club [This will bring in Asia-Pacific fund as well.]**
- iv. **AI based Truth processing machine (This one is non-Profit Wikipedia like system]**
- v. **Healthcare, real estate, internet-based business or business in any other industry.**
- vi. **Or come up with your own idea. We will find angel investors for you.**

4. Great investment opportunities: CLAP Investment Club

5. Even before China's current (2023) financial and real estate crisis, the Return on Investment (ROI) in Asia Pacific countries for private equity was less than 10% IRR. Now, it is even lower. As a result, many Ultra High Net Worth Individuals (UHNWI) in the Asia Pacific region are increasingly interested in investing in the United States and a few other Western countries to seek higher returns. We recently visited several Asia Pacific countries, exploring various business opportunities and meeting with potential investors.
6. **Back to EMMA's main goal.** Emma will help you to be the best of your capacity in all direction. Local, state, federal governments, Techonofeudalism, giant hedge funds and private equity businesses, UNO, WEF, ESG, IMF, WTO, large corporations, Hollywood, educational systems, social media, virtue signaling, woke-ism, cancel culture, snowflake, safe-space, trigger warning, euphemism, SJW, equal outcome (equity), Black Rock, Vanguard, State Street,
7. ARAMCO, Open Society Foundation, Apple, Microsoft, Google, Meta, your job, even places of worship won't help you to be independent thinker, smart, healthy, wealthy, self-reliant and self-sufficient. **Therefore, you have to do it yourself. You need to think independently**, avoid "collective illusion", inadequate equilibria and "unhealthy social norm". **Ask yourself, who runs the world? Do they care for you?**
8. **Government's Virtue Signaling:** Just to give you an example of how much government takes care of the unfortunate one, on the basis of that gambling is not good for the society, most forms of gambling are illegal in Texas, California and a few other states. But both, California and Texas have government run lottery to make money for the government. 60% to 70% of the lottery revenue is kept by the state. This is much worse than gambling in Las Vegas casinos. People who spend disproportionate amount of their income playing lottery are the unfortunate individuals, less educated, and poor people. They are the ones who lose money while state government makes money. These state on one hand claim to take care of the poor and uneducated ones but at the same time taking their money through lottery, this is also referred to as **poverty tax, and stupidity tax**. Even though this revenue used to fund the education but still this money is taken from the uneducated and poor people.

Section 8: Bitter Truth – Global Educational System and Experts:

I came up with the following analogy. This is my original.

In the 1950s, and 1960s semi-automated automobile manufacturing factories relied on human

Click on <Next> below

mechanics who worked alongside conveyor belts, using screwdrivers and spot welding to assemble cars. Today, these mechanics have been replaced by robotic arms, which perform tasks more efficiently, quickly, and accurately than any human can. It is crucial to recognize that the true value of humans lies not only in specialization but in their capacity for generalization.

While our current educational system is undoubtedly valuable but it could have been so much better. Current educational system takes our children, who have the potential to excel in many subjects but our current educational system put them through a pipe line, a tunnel, of elementary school, middle school, high school, college, and university. By the time they come out of the other side of the tunnel they are no longer human being but specialized robots such as doctors, engineers, or lawyers etc. This is in the interest of industrialist and corporations who owns these factories. Because industrialist do not care about you as a human being or if you are a polymath, industrialists want robot like entities. Breakaway from the modern days slavery by being entrepreneur.

Obviously, entrepreneurship is not for everyone. Most of the experts today know very little to nothing outside their field of expertise. Most of them not only lack the understanding of bigger picture; they also lack the ability of independent creative thinking even in their field of expertise. This in effect not only hurt their client but also hurt the experts themselves in the long term but help the industrialists who wants to hire x number of doctors, y numbers of lawyers, z number of engineers. Industrialists do not have much use of human being, they want robots.

To improve our current educational system one of the many things that can be done is, for example, require students to take one or two courses on personal healthcare, high-finance, law, philosophy, entrepreneurship and more. Lack of basic knowledge in wide subject field is the reason why overwhelming majority of the so-called experts are incapable of providing anything beyond mediocre

service to their clients. In addition, they are not good for themselves and do not develop the skill to think rationally deeply. They become more or less like machine, robot. One of EMMA's goals is to encourage our younger generation in their 20s, 30s and also to the middle age group in their 40s, 50s, 60s and beyond to be polymaths, think critically, be honest, fair and apply reason/logic, 21st century science as it is defined in the EMMA's Mission Statement menu item section. Just because one has college degrees doesn't mean much.

EMMA's goal is to make you human, whole again.

Section 9: Healthcare System

Current healthcare system is designed to help the sick and for the masses, one size fits all. Whereas, EMMA believes and promotes preventative and customized healthcare. US healthcare system is the largest economic sector, valued over \$5 trillion. Current system is run for the interest of big Farma and has little benefit for the patient. It is not in the interest of healthcare industry to see a healthy society. If most of US population become healthy and physical fit then US healthcare industry can cut to half. Most of the healthcare firms will go out of business. Sick people are in the interest of pharmaceutical companies.

Same concept applies for giving financial handouts, food stamps, and other financial handouts that doesn't solve any long-term problem but, in a way, buying votes. Power hungry people do not want to see you independent. EMMA's goal is to make you independent, self-sufficient and have ability for critical thinking.

Same way, feeding the body, providing food, medicine, shelter solves only short-term problem. Emma emphasizes on feeding the soul (the mind), teaching, mentoring, funding your startup, R&D projects, that solves long term problem.

Section 10: For Individuals and Universities

If you are affiliated with university or individual entrepreneur then following might interest you.

To professionals, professors, Ph.D. and graduate students,

The Emma Foundation is a non-profit organization registered in the US as an IRS 501(c)(3) global philanthropic entity. My name is Munzer Haque, and I am the founder of the EMMA Foundation. I run my own small Family Office, Private Equity Hedge Fund and invest in small startups as angel investor or seed funder. **You may want to read “About the Founder” in our website.** We need your support. You may want to join one or both of the following two pathways.

Path 1 (Our Seed Funding) We reach out to universities globally to find the best and the brightest professors, Ph.D. and graduate students who are very sharp, hardworking, driven, and have big dreams. We either financially sponsor only those research projects that can be translated to a successful business or invite you and your graduate students to our already sponsored startups in exchange for sweat equity only. Anyone can join this part-time, working remotely, while keeping their day job. Our startups have the potential to make the participants multimillionaire, decamillionaire or more. It won't cost you anything. We reward you for your brain and passion.

Path 2: (Charity) If you are an expert and passionate in any particular subject matter then we will interview you for our Youtube channel to discuss about your research, or any scientific, engineering, deep philosophy, practice, religion, stoic life, to achieve fulfillment, meaning in life.

This will help you to create your own brand. We try to explore and apply all relevant, almost anything and everything under the sun including Ethos, Pathos, Logos, Mythos and real-world facts. **Take the quiz on Intellect in the menu item “The 1% & Better-8 Clubs”, sub-menu P3 in our website www.EmmaFoundation.net** Please also see menu item “Feeding the Children” in our website.

The founder of EMMA believes that root cause of most of the problems in the world is lack of application of reason/logic, fairness, along with emotional control. Embracing deep truths, epistemology, and practicing truth and fairness accordingly you can enhance your life and the lives of those around you. Critical thinking is paramount. Unfortunately, there is a lack of teaching and training in this regard.

We would like to propose a partnership relationship between EMMA Foundation and your university. After taking some time to explore our website, please let us know if you, your professors, your graduate and Ph.D. students are interested in joining our mission in any of the roles listed below or on our website homepage.

Your department, your professors, and your students will greatly benefit from collaborating with EMMA. One of the main goals of the Emma Foundation is to teach people how to think, rather than prescribing what to think. Unlike most charity organizations that feed the body by providing food to the hungry and shelter to the homeless, EMMA does that too, but EMMA's primary goal is to feed the soul, the mind, enabling individuals to discern what is good and bad, right and wrong, and truth from lies, then act upon the conclusions, then all 8-Pistons will follow. **Please see the 7-tiers concept in, text block # 9 in 8-Pistons NFT Poster in our website.**

In Path 1, we are currently focusing on:

1. Global exchange for non-pre-IPO private equity. Blue Ocean strategy. Currently no such platform with comprehensive solution exists.
2. Causal Quant HFT (High Frequency Trading)
3. CLAP Investment Club – Bring global investors, entrepreneur and syndicators together.
4. AI based Truth Machine, similar to Wikipedia but powered by AI and chatGPT
5. Or bring your own business idea, research project, entrepreneurship; we will find angel investors for you.

If you are interested then please contact me. Please share this invitation to anyone who might be interested in.

Yours truly,

Munzer Haque
