

# DRAWING Adventures

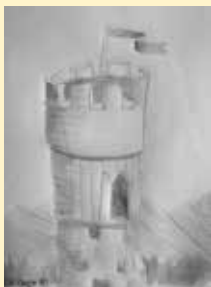

WITH JULIE KUKREJA

Transform your school's art experience with Julie Kukreja's dynamic drawing assembly! With over 30 years of teaching art to students of all ages throughout the Chicago land area, Julie brings an unparalleled passion for creativity and learning. As an accomplished art professor, she knows how to inspire imagination in every child.

Julie's vibrant sessions aren't just classes; they are lively journeys into the world of art! With her extensive background in Illustration and Visual Development, she captivates audiences with fascinating insights and hands-on techniques that make art accessible and fun. Imagine your students creating their own masterpieces as they follow her engaging step-by-step guidance!

With Julie leading the way, your school will be buzzing with excitement, laughter, and artistic energy! Say goodbye to ordinary assemblies and hello to an unforgettable experience that ensures every student walks away with not just a new skill, but a spark of inspiration that encourages them to explore their own artistic potential! Get ready for a fun, engaging, and creative journey with Julie.

***The Clubhouse Artists started from eager neighborhood kids wanting to learn how-to-draw and the rest is history!***

# DETAILS OF ASSEMBLIES

- Two engaging live performances with Julie. One assembly for lower grades and another for upper grades. Optional Family night with book signing.
- Students attend equipped with paper, pencil, and something to draw on (book, clip board, binder)
- Julie will have the group sit on the floor, bleachers, or auditorium seats & draw along with her.
- Using a computer projector (provided by school) and Julie's laptop, she will guide your students through a drawing adventure into their imaginations. Your students will learn how to draw more realistic creatures, animals, and fantastical scenes with her techniques.
- Julie will inspire your students to unleash their creative potential with their new skills learned during the assembly.

Julie specializes in teaching 3D drawing techniques and art principles. Julie has a BA in Illustration and a MFA in Visual Development. She's been teaching students of all ages for over 30 years through the park districts, local colleges, and her beloved sip & paint parties. She is an author/illustrator of her signature book series, "The Best How to Draw Series," including the hit "Furry Animals Vol.1," serving as a springboard for creativity. Her assemblies promise not just learning, but an exhilarating adventure where students collaborate, express themselves, and take pride in their creations. Parents are often heard expressing disbelief that their child actually drew it, after they learn these techniques.
