PLACES TO SEE

Besides cruising up and down Emerald Coast Parkway stopping in at places like Harborwalk Village in Destin or the charming Village of Baytowne Wharf at Sandestin you will truly enjoy "jeeping" down Scenic 30A. This sensational two lane road meanders along the glistening gulf for about eighteen miles beside the sugary shores.

The scenic corridor hugs the forested Gulf of Mexico coastline with breathtaking views of sugar white sand beaches and luminescent emerald hued waters. You will want to pull the jeep over to make pit stops along the way since it passes through a number of picturesque beach side communities. Running west to east these include Dune Allen, Santa Rosa Beach, Blue Mountain Beach, Grayton Beach, Watercolor, Seaside, Seagrove Beach, Watersound, Alys Beach, Seacrest and Rosemary Beach. Each picture perfect town offers its own unique personality with individual architectural features and lifestyles. There are great restaurants, unique boutiques, galleries and lots of shopping adventures along the way.

You may want to stop your Jeep somewhere along the way and have a picnic on the beautiful beach since Scenic 30A has been awarded an esteemed double distinction. First of all the state selected this route as a one of a favored few Florida Scenic Highways due to its natural beauty.

Secondly, this gorgeous route travels beside shores that are designated as a Blue Wave Beach, which is the nation's highest honor for cleanliness and beauty. There are numerous public access points along the way, many of which are below sand dunes that rise up from the edge of the gulf in this special part of the world.

Precious Coastal Dune Lakes parallel the coast. These exotic bodies of water are found in only three other places in the world which include Madagascar, Australia and New Zealand. They support a huge variety of wildlife due to the combination of fresh and salt water which varies as inlets open up or close off to the gulf. Most are undeveloped and protected with almost 25,000 total acres of state forests, preserves or parks that stretch across this scenic route. Sensational seascapes border these pristine forested lakes from beginning to end. At Draper Lake you cross into the rolling hills of Blue Mountain Beach which marks the highest elevation in the United States on the Gulf of Mexico.

Three amazing state parks parallel the coast here which include Topsail with "towering" twenty-five foot dunes, award winning Grayton Beach and forested Deer Lake which is named for the doe that are sometimes seen eating golden Sea Oats near the shore. Grayton Beach State Park is particularly lovely since Scenic 30A crosses Western Lake which borders the forest on one side and runs all the way to the gulf towards the south. A narrow isthmus that crosses the lake in the middle leads into Watercolor. This community is aptly named since this locale experiences spectacular sunsets from fall thru early spring that are colorfully mirrored in the calm lake waters. Imagine the serene yet exhilarating feeling you will have cruising along in your Jeep with the top down while experiencing such sensational scenery. The gentle alabaster colored dunes and shimmering gulf on the beach side of Western Lake complete this picture which is heavenly to gaze upon. Couples and families can be seen here enjoying nature aboard their kayaks, canoes and even paddle boards. If you want to experience paddle boarding at any of the local spots call us for your paddle board rental.

Point Washington has some "off roading" gravel roads that you can travel along and you just might get lucky enough to see some wildlife such as black bears. Be cautious when operating the jeep along roads that seem sandy. Remember sand sinks when driven on and even the most experienced off roader can get stuck.

MY FAMILY LOVES

Deer Lake State Park

A BOARDWALK ACROSS THE DUNES OFFERS EASY ACCESS TO THE BEACH WHERE VISITORS CAN PICNIC, SWIM AND FISH.

IT ALSO OFFERS A SPECTACULAR VIEW OF THE DUNE ECOSYSTEM, ONE OF 11 NATURAL COMMUNITIES FOUND IN THE PARK. DIRECTIONS TO THIS PARK. FIRSTHAND FLORIDA FUN: DEER LAKE STATE PARK IS FEATURED IN THE FIRSTHAND FLORIDA FUN BLOG.

JUSTIN

**JUSTIN GAFFREY
21 BLUE GULF DR
SANTA ROSA BEACH, FL 32459**

TELL THEM WE SENT YOU, IF YOU SEE SOMETHING YOU LIKE!
Justin Gaffrey was born in 1970 in Red Bank, New Jersey. His family moved here to Walton County Florida in 1980 when Justin was 10 years old. In his adult life he worked in furniture design and the culinary arts. Justin eventually went on to open his own restaurant, "Café Sublime," in Gulf Place where he served as both owner and head chef.

Justin has been working as a professional artist since 2001. All of Justin's work is inspired partially by nature and mostly by human nature and life experience. The underlying motif of Justin's work is the connection of all things through nature, shared experiences, and the passion to create and learn new things. Justin's drive to create and learn through his work makes for a very diverse body of creations.

EDEN GARDENS

Eden Gardens State Park contains approximately 163 acres of land that was part of the historic Wesley homestead. The focal point of this park is the beautifully renovated, two-story house with elegant white columns and wrap around porch. In a setting of moss-draped live oaks, the 1897 mansion recalls a prosperous era before the virgin forests of long leaf pine and cypress were exhausted in this part of the state. In 1963, Lois Maxon bought and renovated the home, creating a showplace for her family heirlooms and antiques. Visitors can come and enjoy a guided tour of the Wesley House, meander through the gardens, bring a picnic or go fishing off the dock in Tucker Bayou.

I love taking photos here at Eden Gardens. If you have already had beach photos done, this is a great spot for family or couple photos.

Artificial Limestone Reefs

DIVE INTO ONE OF THE NEW ARTIFICIAL LIMESTONE REEFS!

The South Walton Artificial Reef Association (SWARA) reached a milestone in its goal of creating a protective marine habitat in the Gulf of Mexico with the deployment of its first artificial reef system, Turtle Reef! The system currently comprises 58 reef modules located about 200 yards offshore at Grayton Beach State Park along Scenic Highway 30-A. Aptly named, the reef modules' positions even create the shape of a sea turtle when viewed from above!

This achievement marks the beginning of all-new opportunities never available in the South Walton area for locals and visitors alike to experience an underwater ecosystem teeming with wildlife! Paddle Board, Kayak, or float right off the shore for viewing.
