PLAN REVIEW, PERMITTING SUPPORT & INSPECTIONS

i *The Florida Legislature has recognized that delays in permitting and inspections cause delays in property development and construction. To expedite property development and construction, the Legislature has enacted laws that allow property owners and contractors to hire private providers to perform building code inspection services (including plan review and inspections). Under Florida Law (fs553.791), a property owner or contractor can elect to utilize the services of a private provider in lieu of the local building official.*

OVERVIEW

i *Florida Building Code Compliance Authority Inc was started in 2018 by former governmental employed Building Officials, Plans Examiners and field Inspectors. Operating fully in compliance with all applicable statutes, our staff is fully licensed by the Department of Business and Professional Regulation and our home office is in Panama City, Florida.*

The Benefits

i *Reduce permit processing and inspection times for your projects, ultimately resulting in significant times savings with the completion each building from permitting to the certificate of occupancy.*

- **INSPECTIONS:** Scheduled Inspections (6 days a week). Real time inspection reports, GPS electronically time stamped with photo documentation of every inspection. Transmitted from the job site to the contractor, superintendent, sub-contractors and jurisdiction.

- **CERTIFICATE OF OCCUPANCY:** With all inspections passed and completed, FBCCA electronically submits a Certificate of Completion to the jurisdiction certifying that the project/building is ready for a Certificate of Occupancy.
- **TRAINING:** FBCCA will attend any and all staff/vendor meeting that we are invited to, providing current code information and training, and always available by phone, text or email for fast answers to your questions.

Your permitting team will need the full set of signed/sealed construction plans, a site specific survey that shows flood zone determination, a completed energy code package (EPL Card) and truss layout sheet be deposited in the drop box file for review/certification. Once loaded, notify us at plans.fbcca@gmail.com. We will review the information, annotate and certify as required, and notify you that its ready.
- **INSPECTIONS**- FBCCA mirrors the required inspections of each Jurisdiction we work in. We have to make notice (per statute) to the AHJ that we are doing such inspection prior to performing the inspection. The job site superintendent will need to send an email to us at fbcca.inspection@gmail.com including Master Permit Number, Lot #, Street Address, type of inspection required, and date/time needed. Your superintendent will receive a real time electronic copy of the “NOTICE to AHJ” when it is scheduled by us. Subsequently, a real time electronic inspection report will be sent from the job site to all listed recipients.
