

$$f(\theta) = \sin(\theta)$$

Quality of life estimates

$$\frac{\sqrt{2}}{2} \approx 0.7$$

$$\frac{\sqrt{3}}{2} \approx 0.9$$

$$f(\theta) = \cos(\theta)$$

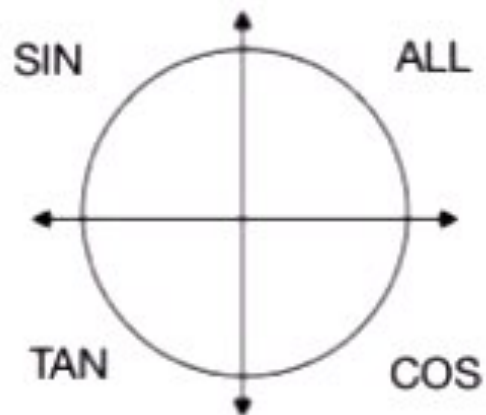

Quality of life estimates

$$\frac{\sqrt{2}}{2} \approx 0.7$$

$$\frac{\sqrt{3}}{2} \approx 0.9$$

$$f(\theta) = \tan(\theta)$$

Quality of life estimates

$$\frac{\sqrt{3}}{3} \approx 0.6$$

$$\sqrt{3} \approx 1.7$$
