All levels of Phonak Lumity include:

Universal
connectivity

Rechargeability

Compatibility with
the myPhonak app

Compatibility with
Roger and Phonak
wireless accessories

* ActiveVent Performance + are the end-user benefits offered by the combination of ActiveVent Receiver and Audéo Lumity hearing aids.

Phonak Lumity

Features and benefits

SmartSpeech Technology	Adaptive Phonak Digital 2.0 Improved	Phonak proprietary fitting formula for reduced listening effort in noise for mild to severe hearing loss groups ^{4***}
	AutoSense OS 5.0 New	Scans the environment and creates up to 200 unique setting combinations to accommodate your unique listening environment
	Phonak SmartSpeech Technology	A collection of hearing aid features that help you participate in conversations and provides easier hearing in many situations ¹
	SpeechSensor New	Optimizes your ability to hear speech from the sides and back in noise
	Speech Enhancer	Easier to hear soft speech or speech from a distance in quiet situations ¹
	StereoZoom 2.0 New	Automatic smooth activation of the hearing aid microphones to focus on a speaker in front of you in a challenging noisy environment
	Dynamic Noise Cancellation	Automatically reduces background noise around you so that it is easier to hear speech in front of you ¹
	Motion Sensor Hearing	Detects whether you are standing or moving and adjusts the microphones to optimize your ability to hear in a noisy environment
	UltraZoom	Automatically helps you focus on a speaker directly in front of you in a noisy environment
	Roger Technology	RogerDirect allows for direct streaming from Roger microphones, for better hearing in noise and over distance ²
	ActiveVent Performance +*	Intelligently balances speech clarity and listening comfort. Provides superior sound quality for streaming media ^{3**}
	SoundRecover2	Makes high-pitched sounds easier to hear
	myPhonak app	The App allows you to customize and adjust your hearing aids. You can also connect with your clinician remotely
	Tap Control	Activate voice assistant application, answer and end phone calls, and pause and resume streaming media
	Universal Connectivity	Automatic streaming and hands-free calls to both ears from any Bluetooth® enabled device

* Requires ActiveVent Receiver

** Compared to a standard acoustic coupling in quiet
