Core Values

Client Focused

We ensure that we fully understand client requirements and capture these within our initial scope. Our client-focused approach ensures that we provide the best possible service whilst maintaining an efficient turnaround on all of our projects.

Committed to Quality

All of our appointments are bespoke and we are committed to the quality of our fire engineered solutions. We pride ourselves on the quality of our reports and work closely with our clients to ensure that our work meets, and surpasses, their expectations.

Passionate About Innovation

We adopt fire safety and engineering principles in developing pragmatic solutions to fire safety problems. Through our engagement with academic partners and others within the construction industry we are at the forefront of innovation in the field of fire safety and engineering. We work hard to adopt performance-based principles in our designs to ensure safety as well as endeavouring to meet client aspirations.
