Don't Forget

- Check your passport!
- Get your currency
- Book your airport transport / parking
- Check in early
- Boarding pass - phone wallet/screen shot
- Book any beauty treatments in advance!

3 things to remember...

The thought of not having something is worse than actually forgetting it!

Girls trip - no doubt if you forget someone else will have it!

Worse case - grab your essentials when you're there!

Hand *Luggage*

- Liquids in clear, resealable bag (100ml)

-

Flight *Ready*

- Comfy Travel Outfit - double up for outwear!
- Wear your chunky shoes or Trainers
- Ensure the shoes are easy to remove
- Follow the hacks!

Hack 1: Share & Downsize

- Go halves on essentials – If travelling with someone, split bulky items like face wash, moisturiser, and body lotion to save space.
- Travel-size everything – Opt for minis or decant into 100ml bottles for carry-on (stay within the liquid limit!).

Hack 2: Organised Carry-On

- Liquids ready to go – Store all 100ml liquids in a clear, resealable bag to breeze through security.
- Electronics on top – Keep your phone, chargers, and headphones easily accessible. Pack hair tools first if needed for quick inspection.
- Bumbag trick – Keep passport, phone, and cards in a waist pack. Slip into your handbag to meet the two-bag limit while keeping essentials at hand.

Hack 3: Pack Like a Pro

- Suitcase strategy – Shoes at the bottom (in shoe bags), clothes rolled or folded for space-saving.
- Compartment bags – Separate toiletries, chargers, and small bits into pouches for easy access.
- Solid soaps = no liquid hassle – Swap body wash for a soap bar to save space and avoid leaks.

Hack 4: Keep It Simple

- Top-down packing – Keep inflight essentials (snacks, book, headset, water bottle) at the top of your carry-on for easy access
