

CLDC330 Cold laminator die cutter

ANKASH
Solutions, LLC

ANKASH CLDC330 Cold laminator die cutter

A growing segment in the printing industry is packaging. Labels are a key application that is produced in the packaging segment. These high attention seeking labels are used extensively in industries such as beverage, wine & alcohol, pharmaceutical, consumer food products, home electronics, toys and many more. A label forms the decoration for a brand, and hence requires high quality of label finishing. Ankash CLDC330 Cold laminator die cutter precisely die cuts and protects the label, giving it a greater shelf life.

Offered in 330mm width, our Cold laminator die cutter is built keeping in mind, the protection your labels need. UV lamination protects the print whilst precision die cutting is enabled by key features such as rotary blades, automatic edge guides, servo controlled taper tension for the web and an easy to use touch screen controls. Enhanced optional features include Slitting and Sheeting. Deploy the CLDC330 and offer your customers the protection for their prints and precision die cut labels they desire.

Specification

CLDC 330
