# ANKASH SR330 Slitter rewinder

A growing segment in the printing industry is packaging. Labels are a key application that is produced in the packaging segment. These high attention seeking labels are used extensively in industries such as beverage, wine & alcohol, pharmaceutical, consumer food products, home electronics, toys and many more. A label forms the decoration for a brand, and hence requires high quality of print reproduction. Ankash SR 330 Slitter rewinder enables you to produce high quality labels of desired width from master rolls.

Offered in 2 widths of 330 and 420 mm widths, our Slitter rewinder are built keeping in mind, the flexibility you need. PLC controls ensure speedy synchronization and full servo motor systems are employed as standard for unwind, rewind and traction control. Touch screen displays with intelligent fault prompting make it easy for the operator to run the device efficiently and easily. Deploy the SR 330 and offer your customers the high quality labels they desire.
