

# IS330 Inspection system

# ANKASH IS330 Inspection system

A growing segment in the printing industry is packaging. Labels are a key application that is produced in the packaging segment. These high attention seeking labels are used extensively in industries such as beverage, wine & alcohol, pharmaceutical, consumer food products, home electronics, toys and many more. A label forms the decoration for a brand, and hence requires high quality of print reproduction. Ankash IS 330 Inspection system detects any defects automatically ensuring the rewind rolls are perfect.

Offered in 330 mm width, our Inspection system enables a predictable quality rewind rolls that have been checked, slit and rewind, giving you the peace of mind. PLC controls ensure speedy synchronization and full servo motor systems are employed as standard for unwind, rewind and traction control. Touch screen displays with intelligent fault prompting make it easy for the operator to run the device efficiently and easily. Deploy the IS 330 and offer your customers the high quality labels they desire.

## Specification

	IS 330
Web feed width (max.)	330 mm
Web inspection (max.)	310 mm
Unwind diameter (max.)	700 mm
Rewind diameter (max.)	700 mm
Machine speed (max.)	300 m/min.
User interace	Touch screen
Option	Two web guides
Dimensions (LxWxH)	2,700 x 1,000 x 1,400 mm
Weight	1,800 kgs.
Power supply	
–Main machine power	8 kw
–Operational power	AC, 380V, 50 Hz, 3 phase (4 wire system)
Desired environment	
–Temperature	Upto 32°C / 90°F
–Relative humidity	20–60%
