Jake and the boys are simply professional, friendly, hard working, polite and amazing at their craft! They had a tough job putting up my chandelier and they did it with meticulous integrity . I cannot recommend their professionalism enough! Thank you so much for making me a happy mamma to my chandelier!

The best electricians ever. I honestly couldn't recommend them enough. Jim was super helpful and put himself out to make sure to fit in some difficult work at short notice where the previous electricians had made a mess of things. The team were very professional, lovely people, and communication was absolutely top tier. Everything was explained to me so that I could understand it and I was updated regularly, and the work was priced very reasonably. At a point where I had reached despair, they really did save the day and gave me back peace of mind. I would choose them a million times over. Thank you all SO much!!

Jake and the boys were very professional and efficient. Done a load of sockets and ceiling lights, very quick and tidy. Could not fault them at all. Would highly recommend and will definitely be using them again.

I had an excellent experience with My Safe Electrical.The electricians were polite, and clearly very knowledgeable. They took the time to make sure everything was done properly and left the place spotless when they finished. It's rare to find such reliable tradespeople these days, but this company really sets the standard. Highly recommended!

I have used MSE since 2017, their electricians are reliable, friendly, competent and their work is completed to a very high standard. I am very lucky to have found them for our house renovations and won't use anyone else !

Tried to be an electrician myself and failed. Phoned up Jake and Jim to fix it. Within 4 hours Jim was at my house, got all the lights back on and fitted my new light. Absolutely lovely fellas who turned up and explained the work they were undertaking. Great communication and fair pricing. Wouldn't use anyone else moving forward. Cheers guys

I recently used My Safe Electrical for some work at my shop, including the installation of new plug sockets and trunking. The electrician arrived on time, was highly professional throughout, and completed the job efficiently. What particularly impressed me was his initiative in installing data points around the trunking—something I hadn't requested—and doing so at no additional cost. This thoughtful gesture demonstrated a genuine commitment to quality and customer satisfaction. I would highly recommend My Safe Electrical and will gladly use their services again in the future.

Very professional and friendly electricians. Nothing was too much trouble and they gave amazing advice and suggestions about things we hadn't even thought about. Our media wall looks fantastic and have had so many compliments. Would definitely recommend 10/10 service.
