

2 Bag Charm or COASTER Instructions Punch Needle Safari

# RABBIT

Cut along the dotted line.

Masking Tape

OPTIONAL:  
Use masking tape or brush fabric glue along the dotted line to prevent fraying before you cut.

# RABBIT

OPTIONAL:  
Tape or glue doesn't  
have to be neat. Center  
it on the dotted line  
and cut the dotted line.

2 Bag Charm or COASTER Instructions Punch Needle Safari

# RABBIT

If you do not tape or glue the edge, be careful to avoid fraying too much before you finish the project.

This is the cut Rabbit bag charm (or coaster) without a taped edge.

Position the 3" round wood shape at the center of your coaster touching the "back" side – not the fluffy loop side.

Position the 3" round wood shape at the center of your coaster touching the "back" side – not the fluffy loop side.

Tape from the outside towards the center with even pressure.

The tape should connect the flaps of fabric to the wood round.

You should keep moving in taped flap pairs all the way around until you have a very good covering of tape.

Once you have this taped, **STEAM PRESS BOTH SIDES** with a hot iron pressed over a damp towel.

Our goal with the press is to flatten the loops to make the longer loops overlap some of the shorter loops for a sculpted look while still being flat enough to be a coaster.

If you would like a black wood edge, use your sharpie marker to color the sides of your wood backing.

Most alcohol based or acrylic markers work well to stain wood with a durable finish that is suitable to use as a bag charm or coaster.

You may secure the coaster to the wood backing with the provided adhesive or any wood and fabric friendly glue you may want to use.

These instructions provide a way to complete the project without sewing. You may want to explore other ways to create a bag charm by sewing if you would like to make something more "archival".
