Dear Newstead Parents,

We are tremendously grateful for the collaborative effort that Newstead parents and staff have invested in keeping our children safe.

As we are entering summer months, increase attendance of social gatherings for both staff and families would be expected. However, we do kindly remind everyone to take precautions while interacting with loved ones, including but not limited to frequent hand washing and keeping an appropriate distance with others. Despite that masking requirements are no longer in effect, wearing one is still strongly recommended for participating in various indoor events.

In response to the heightened concern for COVID-19, we will continue to send packages of rapid antigen tests (RATs) home with your child periodically and as requested. If your child is experiencing any signs and symptoms of illnesses, please administer two RATs 24hrs apart and keep your child home until fully recovered. **In case any of the RATs presents a positive result, your child must isolate at home for 5 days from the on-set of symptoms prior to returning to childcare.**

If you have questions or concerns, please do not hesitate to visit our office for clarification from one of us.

Best Regards,
Newstead Academy
