

Masonville Cove

Campus Operations and
Education

Lorraine Warnick

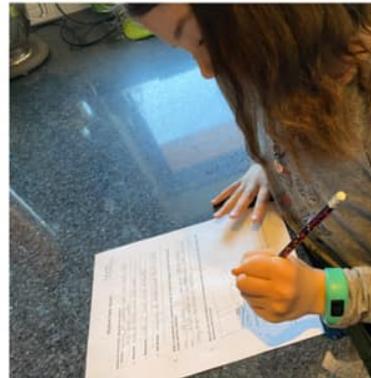

Eagles

- Eagles nested in the big Sycamore Tree for a second year and once again successfully fledged 2 eaglets.
- Property/trail restrictions have been lifted. Campus is open Mon-Fri 9am-4pm and Saturdays 9am-1pm (unless holiday).
- Please come visit, sign-in at the Virtual Receptionist, and enjoy some much needed mindfulness in nature at Masonville Cove.

Education- Spring 2020

- Traditional outreach programs and fieldtrips have also been directly impacted by the pandemic.
- Living Classrooms Foundation Masonville Cove education staff made and distributed 800 STEAM to-go boxes for students at our local schools.
- **S**cience, **T**echnology, **E**ngineering, **A**rt, and **M**ath (each box contained 5 hands-on activities and supplies for students to complete at home).

Education- Summer 2020

- BEESMART (**B**altimore **E**nvironmental **E**ducation **S**ummer **M**ath and **R**eading **T**railblazers) ran 5 weeks of Virtual E-STEM programming for 50 students from Maree G Farring and Lakeland Elementary Schools. This program prevents summer learning loss.
- Masonville Cove Summer Science and Nature Program starts on Monday. Each registered child (\$50) receives a Discovery Backpack Kit which contains 10 hands-on science and 5 craft activities, and log-in information for daily 1hr Virtual LIVE Google Classrooms sessions.

Education- Fall 2020

- Living Classrooms Foundation Masonville Cove education staff intend to continue to engage our local communities and schools with fun, creative, and safe hands-on distance learning experiences.
- Funding is as much of a challenge as ever, therefore we have made Amazon wish-lists to allow people the opportunity to help purchase/donate supplies we need to continue to create hands-on education kits for distance learning for our local students.
