We installed the FRE-FIO system in 2017 to help filter the harsh water going into the water line of our ice machines. For years we have had ice machine break down because of the calcium and chemical build up. Unfortunately, the manufactures do not warranty the ice machine when they break due to that build up. The stress relief of know the machines will last longer cannot be quantified.

We can confidently say the product works to soften the water. This has extended the life of our equipment and has saved us thousands of dollars. We highly recommend this product to any facility that has ice machines.

Christopher Anderson
Owner

A handwritten signature in black ink, appearing to read "Christopher Anderson", is written over the printed name and title.
