

Right of Way Ordinance

Please do not plant or place things in the Township right-of-way area. The right-of-way area is usually 33 feet from the center of the road. This also includes agricultural land; some crops can reduce visibility, and fill in the ditches, which may cause a need for ditch repair in the future. We do encourage you to mow the right-of-way areas. If you have any questions, please call. We will be happy to meet with you.
