Old Business

- Helman advised the reason for calling an emergency meeting was called to discuss the Baker Road project from work being stopped and the safety of people who use this road. Several items have been left on the road, large piles of dirt blocking waterflow.
- Helman had been working with the contractor, township engineer and maintenance to figure out what was the issue since the last board meeting 9/1/26. Contractor was concerned about several issues, but the largest concern was lack of payment and stopped all work.
- Helman explained what he learned how the payment is processed and there have been two previous payments totaling \$78,178.51. Township engineer needs 1-2 weeks to process and verify the work has been complete. Several numbers had to be adjusted because the work either wasn't completed or a difference from the contractor vs what our maintenance/engineer thought was completed.
- Payment request #3 was sent to engineer on August 24, 2026,
- Maintenance and engineer agreed to pay the contractor \$55,470.91, this request was approved 2 days after our regular board meeting.
- Helman said if approved he would be meeting with the foreman and would give them the check. Job foreman said work would be restarted after payment.
- Motion made by Nelson, second Christensen to approve payment totaling \$55,470.91, motion carried 4-0.
